

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## BASIS OF PRESENTATION

### PARENT COMPANY

The parent company of the DEUTZ Group is DEUTZ AG. Its registered office is located at Ottostrasse 1, 51149 Cologne, Germany, and the Company is entered under no. HRB 281 in the commercial register at the local court in Cologne. The Board of Management approved these consolidated financial statements for publication by adopting a resolution dated 22 February 2016.

DEUTZ AG shares are listed in the Deutsche Börse SDAX segment and are publicly traded on the stock exchanges in Frankfurt and Düsseldorf as well as on the Xetra electronic trading platform.

DEUTZ is an independent manufacturer of compact diesel engines. The Group's activities are divided into two operating segments – DEUTZ Compact Engines and DEUTZ Customised Solutions – and the Other segment. In its two operating segments, DEUTZ focuses on value creation processes involving the development, design, production and sales of liquid-cooled and air-cooled engines. The business is broken down into the main application segments of Mobile Machinery, Agricultural Machinery, Automotive, and Stationary Equipment. Comprehensive after-sales service rounds off the product range offered.

### BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The DEUTZ Group's consolidated financial statements prepared for the parent company DEUTZ AG are based on uniform accounting policies. The consolidated financial statements are prepared in accordance with the International Financial Reporting Standards (IFRS) and their interpretations as adopted by the European Union (EU) and are consistent with the statutory obligations applicable to publicly traded parent companies subject to disclosure requirements pursuant to section 315a (1) of the German Commercial Code (HGB) in conjunction with Article 4 of Regulation (EC) No. 1606/2002 of the European Parliament and of the Council dated 19 July 2002 concerning the application of international accounting standards, as amended (IAS Regulation).

The consolidated financial statements are generally prepared using the cost method. Specific exceptions are derivative financial instruments and available-for-sale financial assets, which are measured at fair value. The consolidated financial statements are prepared in euros. Unless otherwise stated, all figures are rounded up or down to the nearest million euros.

### APPLICATION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)

#### 1) Amendments to accounting policies

The accounting policies on which the consolidated financial statements are based are fundamentally the same as the policies applied in 2014 with the exceptions set out below.

**IFRIC 21 'Levies'** The IASB published this interpretation in May 2013. IFRIC 21 deals with the question of when to recognise a liability for certain levies imposed by a government, and offers guidance on the matter. Initial application of IFRIC 21 did not have any material impact on the Group's financial position or financial performance.

#### Collective standard amending various IFRSs (2011–2013)

The amendments published by the IASB in December 2013 are primarily concerned with clarifying ambiguous provisions in standards. Initial application of the changes did not have any material impact on the Group's financial position or financial performance.

#### 2) Published but not yet mandatory standards, interpretations and amendments

The International Accounting Standards Board (IASB) and the IFRS Interpretations Committee (IFRS IC) have published the following standards and amendments to standards that have already become part of EU law via the comitology procedure. However, the application of these standards was not yet mandatory in 2015 and DEUTZ has not opted to apply these interpretations or amendments to standards before the mandatory application date.

**'Disclosure Initiative' (Amendments to IAS 1)** The IASB published these amendments to IAS 1 in December 2014. The amendments largely consist of clarifications regarding the use of discretion in the presentation of financial statements. The amendments come into force for financial years commencing on or after 1 January 2016.

**‘Clarification of Acceptable Methods of Depreciation and Amortisation’ (Amendments to IAS 16 and IAS 38)** The IASB published these amendments in May 2014. These amendments clarify the methods that can be used for the depreciation and amortisation of property, plant and equipment and intangible assets. The amendments come into force for financial years commencing on or after 1 January 2016. The initial application of these rules is not expected to have any impact on the Group’s consolidated financial statements.

**‘Defined Benefit Plans: Employee Contributions’ (Amendments to IAS 19)** The amendments to IAS 19 were published in November 2013. Under certain circumstances, these amendments by the IASB allow contributions made by employees and third parties during the period in which the benefit was earned to be recognised as a reduction in the current service cost. Adoption of the amendments into EU law has resulted in the timing for mandatory initial application changing from the original date of 1 July 2014 to financial years beginning on or after 1 February 2015. The Company does not expect initial application of the amendments to have any material impact on the Group’s financial position or financial performance.

**‘Accounting for Acquisitions of Interests in Joint Operations’ (Amendments to IFRS 11)** The IASB published these amendments in May 2014. The amendments clarify that the acquirer of an interest in a joint operation that constitutes a business, as defined in IFRS 3 ‘Business Combinations’, is required to apply all of the principles on business combinations accounting in IFRS 3 and other IFRSs with the exception of those principles that conflict with the guidance in IFRS 11. The amendments apply to financial years beginning on or after 1 January 2016. They are not expected to have any impact on the DEUTZ Group’s consolidated financial statements.

**Collective standard amending various IFRSs (2010–2012)** The amendments were published in December 2013 and are primarily intended to clarify certain ambiguous provisions in the standards. Adoption of the amendments into EU law has resulted in the timing for mandatory initial application changing from the original date of 1 July 2014 to financial years beginning on or after 1 February 2015. The initial application of these amendments is not expected to have a material impact on the Group’s consolidated financial statements.

**Collective standard amending various IFRSs (2012–2014)** The amendments published by the IASB in September 2014 primarily contain additional guidance for clarifying ambiguous provisions in standards. The amendments come into force for financial years commencing on or after 1 January 2016. The Company does not expect initial application of this standard to have any material impact on the Group’s financial position or financial performance.

The International Accounting Standards Board (IASB) and the IFRS Interpretations Committee (IFRS IC) have published the following standards and interpretations, the application of which was not yet mandatory in 2015. These standards and interpretations have not yet been adopted by the EU and are not applied by the DEUTZ Group in its consolidated financial statements.

**IFRS 9 ‘Financial Instruments’** Following completion of the final phase of the project to replace IAS 39 ‘Financial Instruments: Recognition and Measurement’, the IASB published the final version of IFRS 9 in July 2014. Among other things, IFRS 9 introduces new requirements for the classification and measurement of financial assets. The standard also includes new requirements for hedge accounting, with the specific aim of linking hedge accounting more closely to the risk management of entities. IFRS 9 also sets out a new impairment model based on expected default. The new standard comes into force for financial years beginning on or after 1 January 2018. The Company is currently examining the potential impact of initial application of this standard on the Group’s financial position and financial performance.

**IFRS 15 ‘Revenue from Contracts with Customers’** The IASB published IFRS 15 in May 2014. This new standard replaces IAS 11 ‘Construction Contracts’, IAS 18 ‘Revenue’ and the interpretations relating to them. One of the objectives of the new standard was to amalgamate the numerous requirements previously included in several standards and interpretations and to establish consistent underlying principles to be used for all categories of revenue-related transaction across all sectors. According to IFRS 15, the amount recognised as revenue is the amount expected in return for providing goods or services to customers. The point at which control over the goods or services is transferred to the customer determines the point in time at which or the period of time over which revenue is recognised. Full control can be transferred at a certain point in time or gradually over a period. In an amendment in September 2015, the IASB changed the original initial application date from 1 January 2017 to financial years beginning on or after 1 January 2018. The Company is currently investigating the potential impact of the new standard on the Group’s consolidated financial statements.

**IFRS 16 ‘Leases’** The IASB published IFRS 16 in January 2016. This new standard replaces IAS 17 ‘Leases’ and the interpretations relating to them (IFRIC 4, SIC 15 and SIC 27). IFRS 16 governs the recognition, measurement, presentation and disclosure of leases with the aim of ensuring that lessees and lessors provide relevant information about the impact of leases. As a result of this model, lessees must recognise assets and liabilities for all leases on the balance sheet, unless the lease term is twelve months or less or the underlying asset has a low value. The new standard comes into force for financial years beginning on or after 1 January 2019. The Company is currently investigating the potential impact of the new standard on the Group’s consolidated financial statements. It is expected that initial application of the new standard will result in an increase in total assets.

**‘Disclosure Initiative’ (Amendments to IAS 7)** The amendments to IAS 7 ‘Statement of Cash Flows’ were published in January 2016. The aim of these amendments is to clarify IAS 7 and to improve the information about an entity’s financing activities that is made available to users of financial statements. The amendments apply to financial years beginning on or after 1 January 2017.

**‘Recognition of Deferred Tax Assets for Unrealised Losses’ (Amendments to IAS 12)** The amendments to IAS 12 ‘Income Taxes’ were published in January 2016. These amendments clarify a number of requirements regarding the recognition of deferred tax assets for unrealised losses. The amendments apply to financial years beginning on or after 1 January 2017. They are not expected to have any material impact on the DEUTZ Group’s consolidated financial statements.

**‘Sale or Contribution of Assets between an Investor and its Associate or Joint Venture’ (Amendments to IFRS 10 and IAS 28)** The IASB issued these amendments in September 2014. They clarify that in a transaction involving an associate or joint venture the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business as defined by IFRS 3 ‘Business Combinations’. The amendments have been postponed indefinitely owing to inconsistencies between the standards.

**‘Investment Entities: Applying the Consolidation Exception’ (Amendments to IFRS 10, IFRS 12 and IAS 28)** The amendments were published in December 2014 and include clarifications relating to the application of the consolidation exception for investment entities. The amendments apply to reporting periods beginning on or after 1 January 2016. As the Company does not apply the exception for investment entities, initial application of the amendments is not expected to have any impact.

### **Significant estimates and assumptions**

To a certain extent, the preparation of the consolidated financial statements in accordance with IFRS requires estimates and assumptions that have an impact on the recognition, measurement and reporting of assets and liabilities, the disclosure of contingent liabilities at the balance sheet date and the reporting of income and expenses. Estimates and assumptions giving rise to a material risk in the form of adjustments to the carrying amounts of assets or liabilities over the next financial year are explained below. Adjustments to estimates are recognised in income when better knowledge becomes available.

**Impairment of non-financial assets** The DEUTZ Group conducts tests at each balance sheet date to determine whether there are any indications that non-financial assets may be impaired. In order to estimate the value in use, the management must estimate future cash flows expected to be derived from the asset or from the cash-generating unit and select an appropriate discount rate to determine the present value of these cash flows.

**Deferred tax assets** The DEUTZ Group is obliged to pay income taxes in various countries. It therefore needs to make estimates on the basis of which tax provisions and deferred taxes can be recognised. When determining the amount of deferred tax assets, the management must make judgements – which may involve material uncertainties – regarding the expected timing and amount of future taxable income as well as future tax planning strategies. DEUTZ mainly recognises deferred tax assets on losses carried forward. They are recognised for all unused tax loss carryforwards to the extent that it is probable that future taxable profit will be available against which the loss carryforwards can actually be set off. Planning forecasts over a period of five years are used to determine the future taxable profit that is likely to be available.

As at 31 December 2015, the carrying amount of deferred tax assets recognised in respect of tax loss carryforwards amounted to €68.3 million (31 December 2014: tax loss carryforwards of €67.5 million). Further details can be found under Note 15 on page 93 et seq.

**Pension benefits** The expense for defined benefit plans is determined using actuarial calculations. These actuarial calculations are based on assumptions regarding discount rates, future increases in wages and salaries, staff turnover, mortality and future increases in pensions. These estimates are subject to material uncertainty owing to the long-term nature of these plans.

Because of changes in economic and market conditions, the costs and liabilities actually incurred may differ significantly from the estimates made on the basis of actuarial assumptions. The rate of pension and salary increases, the longevity of those entitled to pension benefits and the discount rate used can have a material impact on the amount of the defined benefit obligation and, consequently, on future pension costs.

**Development expenditure** is capitalised in accordance with the accounting policies described below. Management makes assumptions about the amount of future cash flows expected to be generated from the development projects, the discount rates to be applied and the period over which the cash is expected to flow into the Company. As at 31 December 2015, the carrying amount of capitalised development expenditure was €165.7 million (31 December 2014: €199.4 million).

**Pending or potential legal disputes** DEUTZ AG and other companies in the DEUTZ Group are subject to a variety of regulations under tax, competition and patent law as well as to other legal and statutory requirements. Existing and potential legal disputes are recorded and analysed on an ongoing basis at DEUTZ; they are assessed in terms of their legal and financial impact and an appropriate amount is recognised in the risk provisions in the accounts. At present, it is not possible to predict the outcome of pending cases with any degree of certainty beyond the provisions already recognised. We do not expect them to have a significantly adverse impact on the DEUTZ Group's financial position or financial performance. The overall position as regards the legal risks facing the DEUTZ Group is explained in more detail in Note 27 on page 114.

## BASIS OF CONSOLIDATION

All subsidiaries, joint ventures and associates are included in the consolidated financial statements. Subsidiaries are all entities directly or indirectly controlled by DEUTZ AG. Subsidiaries are consolidated from the point at which the parent company acquires control. Consolidation ends when the parent company no longer has control. In addition to DEUTZ AG, the consolidated financial statements include six German subsidiaries (2014: six) and nine foreign subsidiaries (2014: ten).

In the fourth quarter of 2015, the subsidiary DEUTZ Engine (China) Co. Ltd., which was headquartered in Linyi, China, and was established as a joint venture with AB Volvo (publ), Gothenburg, Sweden, was wound up completely. This winding-up resulted in a loss of control over the company and it was therefore deconsolidated. DEUTZ AG had held a 65 per cent shareholding in the company via DEUTZ Engine China GmbH. The joint venture was fully included in the consolidated financial statements of DEUTZ AG using the acquisition method. AB Volvo's holding of 35 per cent of the voting shares was reported as a non-controlling interest under Group equity. The profit of €1.0 million attributable to DEUTZ AG in connection with the loss of control was recognised under other operating income.

Joint ventures are companies over which control is exercised jointly by DEUTZ and other entities on the basis of a contractual agreement. Associates are entities over whose business and financial policies DEUTZ AG is able to exert a significant influence but are neither subsidiaries nor joint ventures. Associates and joint ventures are both accounted for in the consolidated financial statements using the equity method. In the year under review, the consolidated financial statements included one (2014: one) foreign entity in accordance with the rules governing associates and two (2014: three) foreign joint ventures.

Following the disposal of the shares in WEIFANG WEICHAI-DEUTZ DIESEL ENGINE CO., LTD., Weifang, China, this company was deconsolidated in the fourth quarter of 2015. A total gain on disposal of €2.9 million was recognised.

Page 123 of the annex to the notes to the financial statements lists the shareholdings of DEUTZ AG as at 31 December 2015.

## PRINCIPLES OF CONSOLIDATION

The separate financial statements of the individual entities included in the consolidated financial statements have been prepared using uniform accounting policies in accordance with the regulations on consolidation. The consolidated financial statements comprise the financial statements of DEUTZ AG and of its subsidiaries prepared each year for the twelve months ended 31 December.

The acquisition method has been used to account for business combinations since 1 January 2010. The acquisition cost is measured at the fair value of the assets transferred, the liabilities incurred or assumed (including conditional liabilities) and of the equity instruments issued at the acquisition date, irrespective of the amount of any non-controlling interests. For each business combination, the Group decides whether to measure the non-controlling interest in the acquiree at fair value (full goodwill method) or at the proportionate fair value of the assets acquired and the liabilities assumed. Acquisition-related costs are expensed as incurred.

The acquisition method was used to account for acquisitions between the transition to accounting based on IFRS on 1 January 2005 and 31 December 2009. Under this method, the carrying amount of the investment was offset against the DEUTZ Group's proportionate share of equity in the consolidated subsidiary remeasured at fair value on the acquisition date. Transaction costs directly attributable to the acquisition constituted some of the acquisition-related costs.

The non-controlling interest is the share of net profit/loss and net assets not attributable to the DEUTZ Group. The Shandong Changlin Machinery Group's holding of 30 per cent of the voting shares in DEUTZ Engine (Shandong) Co., Ltd., Linyi, China, was reported as a non-controlling interest as at 31 December 2015.

Income and expenses, receivables and payables, and inter-company profits and losses generated between the consolidated entities are eliminated unless they are of no material significance.

## JOINT VENTURES AND ASSOCIATES

Investments in joint ventures and associates are accounted for using the equity method. Under the equity method, investments in an associate or joint venture are recognised on the balance sheet at cost plus any changes in the DEUTZ Group's share of the entity's net assets that have occurred since the acquisition. The goodwill related to the associate or joint venture is included in the carrying amount of the investment and is not amortised. The income statement includes the DEUTZ Group's share of the profit or loss generated by the associate or joint venture. Unless they are material, gains and losses on transactions between the Group and its associates or joint ventures are eliminated. Changes recognised directly in the equity of the associate or joint venture are recognised by the DEUTZ Group in the amount of its investment and, as such, are appropriately presented in the statement of changes in equity. With one exception, the financial statements of the associates and joint ventures are prepared to the same balance sheet date as the financial statements for the parent. Interim financial statements have not been prepared for reasons of materiality. Where required, figures are restated in line with the uniform accounting policies throughout the DEUTZ Group.

## CURRENCY TRANSLATION

The items in the financial statements of each individual entity in the DEUTZ Group are measured in the currency that corresponds to the currency of the primary economic environment in which the entity operates (functional currency). Transactions denominated in foreign currency are translated into the functional currency using the relevant exchange rates on the date of the transaction. Subsequently they are translated on every balance sheet date using the closing rate. All currency translation differences are recognised in profit or loss unless they are in connection with qualified cash flow hedges, in which case they are recognised in other comprehensive income.

With the exception of equity, balance sheet items in separate financial statements denominated in foreign currency are translated into the functional currency of the DEUTZ Group (euros) at closing rates. Income and expense items – including net income or loss – are translated at the average rates for the year. Equity – with the exception of net income or loss – is translated at the prevailing historical closing rates.

Principles of consolidation

Joint ventures and associates

Currency translation

Accounting policies

Differences arising from the translation of equity at historical rates and the translation of net income or loss at average rates for the year are reported in other comprehensive income in a separate item.

The main exchange rates used for currency translation purposes are shown in the following table (€1 translated into foreign currencies):

		Average rates		Closing rates at 31 Dec	
		2015	2014	2015	2014
USA	USD	1.10	1.32	1.09	1.21
UK	GBP	0.72	0.80	0.73	0.78
China	CNY	6.95	8.15	7.06	7.54
Australia	AUD	1.48	1.47	1.49	1.48
Morocco	MAD	10.80	11.15	10.75	10.96
Russia	RUB	68.77	51.93	80.67	72.34

## ACCOUNTING POLICIES

Significant accounting policies used to prepare these consolidated financial statements are described below.

### REVENUE RECOGNITION

Revenue generated by the sale of engines and services comprises the fair value received excluding VAT, discounts and price reductions.

Revenue and other income is recognised as follows:

**Revenue from the sale of engines** Revenue from the sale of engines is recognised once a DEUTZ Group entity has delivered to a customer and the risks and rewards have passed to the customer. Estimates of future price reductions are covered by provisions and deducted from revenue.

**Revenue generated by services** Revenue generated by services is recognised at the time the service is provided.

**Interest income, licence income, dividends and other income** Interest income is recognised pro rata temporis using the effective interest method. Licence income is either deferred and recognised pro rata temporis in accordance with the substance of the relevant agreements or recognised when

risks and rewards have been transferred. Dividend income is recognised at the time the right to receive the payment arises. Other income is recognised according to contractual agreement on the transfer of risks and rewards.

### BORROWING COSTS

Borrowing costs that can be directly attributed to the construction or manufacture of an asset for which a substantial period is required to bring the asset to its intended usable condition are capitalised as part of the costs of the relevant asset. All the other borrowing costs are expensed as incurred. Borrowing costs are the interest and other costs incurred by a company in connection with borrowing funds.

### ADDITIONAL DISCLOSURES

In addition to the information required by IFRS, the DEUTZ Group reports a figure for EBIT before one-off items, which it uses for internal purposes to gauge the profitability of its business. One-off items are defined as significant income generated or expenses incurred outside the scope of the Company's ordinary business activities that are unlikely to recur. There were no one-off items in 2015 (2014: one-off expenses of €18.9 million).

### PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is recognised at cost and, if depreciable, less any depreciation on a straight-line basis and any additional impairment losses. Cost comprises the purchase price and any directly attributable costs incurred to bring the asset to the required location and working condition.

The costs of conversion of property, plant and equipment constructed internally comprise directly attributable costs, pro rata material and production overheads as well as administrative expenses related to production or delivery of the service.

Subsequent costs are added to the carrying amount of the asset concerned as incurred, provided that the recognition criteria are satisfied. Repair and maintenance costs are expensed as incurred.

The depreciation period is based on the expected useful life of the asset. Land is not depreciated.

Straight-line depreciation is based on the following useful lives for the main asset categories:

	Useful life (years)
Buildings and grounds	15–33
Technical equipment and machines	10–15
Other equipment, furniture and fixtures	3–10

Residual carrying amounts, useful lives and depreciation methods are reviewed at the end of each year and adjusted where appropriate.

An item of property, plant or equipment is derecognised either on disposal or if no further economic benefit is expected from further use or sale of the asset. Gains or losses arising from the derecognition of the asset are calculated as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the income statement in the period in which the asset is derecognised.

## INTANGIBLE ASSETS

Intangible assets are measured at cost. The cost of purchase or conversion includes directly attributable costs. The cost of conversion also includes a proportion of overheads and borrowing costs for long-term projects provided the recognition criteria are met. In subsequent periods, intangible assets are reported at cost less amortisation on a straight-line basis and any additional impairment losses. Investment grants from customers are deducted from cost. The useful lives of both purchased and internally generated intangible assets are limited. The amortisation expense and impairment losses are reported in the income statement accordingly.

The following principles are applied:

**Internally generated intangible assets** The accounting treatment of internally generated intangible assets is based on an implemented development process with defined milestones. During this process, the development costs for the products are capitalised provided that

- they are technically and commercially feasible,
- a future economic benefit is likely,
- there is the intention to complete their development and sufficient resources are available to do so, and
- the costs of development can be reliably determined.

The review of whether these criteria are met takes place in connection with the achievement of defined milestones in the development process. Development projects at DEUTZ relate almost exclusively to the development of new engine series. The fact that these development projects are technically feasible and will actually be completed is borne out by a multitude of evidence from the past. Until this point, the development and research costs incurred are recognised in the income statement in the period in which they are incurred. As a rule, completed development projects are amortised on a straight-line basis over the expected production cycle of three to nine years.

As at 31 December 2015, the material, completed development projects had the following remaining useful lives:

Engine series 12.0/16.0	4 years
Engine series 7.8	10 years
Engine series 6.1	4 years
Engine series 4.1	5 years
Engine series 3.6	5 years
Engine series 2.9	6.5 years

The useful lives and amortisation methods for completed development projects are reviewed at every year-end, if not more frequently. If any changes in their useful lives are required, they are treated as changes in accounting estimates. Following changes to the product strategy in December 2015, the production cycle for the 7.8 engine series is now expected to be considerably longer. Consequently, the useful life of this series was extended from the original nine years to 15 years as at 31 December 2015. At the same time, the amortisation method for this series was adjusted for 2016 onwards, from the straight-line method to the declining-balance method, to reflect its expected usefulness over the remaining product lifecycle. The revised estimates will have the following impact on amortisation over the entire residual life:

€ million	(-) Decrease/ (+) increase in amortisation	(-) Decrease/ (+) increase in deferred tax income	(-) Decrease/ (+) increase in net income
2016	-2.3	-0.7	1.6
2017	-2.9	-0.9	2.0
2018	-3.5	-1.1	2.4
2019	-4.1	-1.3	2.8
2020	3.7	1.2	-2.5
2021	3.1	1.0	-2.1
2022	2.4	0.7	-1.7
2023	1.8	0.5	-1.3
2024	1.2	0.4	-0.8
2025	0.6	0.2	-0.4

**Other intangible assets** These are measured at amortised cost and amortised on a straight-line basis over their estimated useful life of three to ten years.

Gains or losses arising from the derecognition of intangible assets are the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the income statement in the period in which the asset is derecognised.

### IMPAIRMENT OF NON-FINANCIAL ASSETS

At each balance sheet date the DEUTZ Group carries out tests to establish whether there are any indications that an asset may be impaired. An impairment test is carried out at least once a year on intangible assets that are not yet available for use.

Impairment is determined by comparing the carrying amount with the recoverable amount. The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. If future cash inflows cannot be allocated to an individual asset separately from cash flows generated independently by other assets, the impairment test is applied to the cash-generating unit that includes the asset concerned. When impairment tests are conducted, assets are aggregated into cash-generating units at the lowest-possible level at which cash inflows can largely be independently identified.

Value in use is calculated by discounting estimated future cash flows to their present value. The calculation uses a discount rate that reflects current market expectations in respect of the time value of money and the risks inherent in the asset or cash-generating unit. The cash flows used in the calculation are derived and extrapolated from operational planning (five-year period). If the reasons for previously recognised impairment losses no longer exist, these impairment losses are reversed.

### GOVERNMENT GRANTS

Government grants are recognised when there is sufficient certainty that the associated conditions will be fulfilled and the grants will actually be awarded. The DEUTZ Group deducts government grants relating to purchases of non-current assets from the cost of the respective asset. The amount of depreciation and amortisation is based on the cost of purchase after deduction of such grants. In the case of an interest-free government loan

that has been received, the value of the interest benefit has been quantified in accordance with the provisions in IAS 39. The loan has been measured at fair value and the interest benefit recognised as deferred income.

### INCOME TAXES

**Deferred taxes** Deferred taxes are recognised using the liability method for temporary differences between the carrying amount of an asset or a liability in the consolidated balance sheet and its tax base as at the reporting date as well as for tax loss and interest carryforwards.

Deferred tax assets are recognised to the extent that sufficient future taxable income is likely to be generated over the planning period against which the deductible temporary differences and the as yet unused tax loss carryforwards can be offset.

Deferred tax liabilities that arise from temporary differences in connection with investments in subsidiaries, joint ventures and associates are always recognised unless the timing of the reversal of the temporary differences can be controlled and it is unlikely that the temporary differences will reverse in the foreseeable future.

Deferred taxes relating to items recognised in other comprehensive income are likewise recognised in other comprehensive income and not in the income statement.

Deferred tax assets and liabilities are netted if the DEUTZ Group is entitled to have the current tax assets offset against tax liabilities and if the deferred taxes relate to income taxes levied by the same tax authority.

Deferred taxes are recognised at the rates anticipated on recognition of the asset or liability. The anticipated tax rate is the rate that has already been enacted or announced at the balance sheet date, provided announcement of the tax rate has the substantive effect of actual enactment.

**Current tax expense** Current income taxes for the current period and for previous periods are recognised at the amount that is expected to be paid to (or recovered from) the tax authorities or has already been paid. The tax amount is calculated on the basis of tax rates and tax legislation enacted or substantively enacted as at the relevant balance sheet date.

## INVENTORIES

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price achievable in the ordinary course of business less estimated costs still to be incurred.

The cost of raw materials and consumables as well as bought-in and spare parts is calculated using weighted average purchase prices.

Work in progress and finished goods are measured at the cost of conversion, which includes production materials and production wages as well as a proportion of material and production overheads.

Additional write-downs are applied to cover risks resulting from inventories' period of storage and impaired usability as well as contract-related losses.

## NON-CURRENT ASSETS CLASSIFIED AS HELD FOR SALE

Non-current assets are classified as 'held for sale' and recognised at the lower of their carrying amount and their fair value less costs to sell if their carrying amount essentially derives from their sale rather than from their continued use.

## FINANCIAL ASSETS

In the DEUTZ Group, financial assets within the meaning of IAS 39 can be in any of the following categories and are classified accordingly:

- financial assets designated at fair value through profit or loss,
- loans and receivables, or
- available-for-sale financial assets.

On initial recognition, financial assets are measured at fair value. In the case of financial assets other than those classified as at fair value through profit or loss, transaction costs directly attributable to the acquisition of the assets are also included.

Financial assets are classified in one of the measurement categories on initial recognition. Assets may be reclassified if this is permitted and necessary.

Except in the case of held-for-trading financial assets, all regular way purchases and sales of financial assets are recognised on the settlement date, i.e. the date on which the asset is delivered

to or by DEUTZ. Held-for-trading financial assets are recognised on the trade date, i.e. the date on which the DEUTZ Group enters into the obligation to buy or sell the asset. Regular way purchases and sales are purchases or sales of financial assets that provide for the delivery of the asset within a period determined by market regulations or conventions.

**Financial assets at fair value through profit or loss** In the DEUTZ Group, financial assets designated as at fair value through profit or loss include held-for-trading financial assets. To date, the DEUTZ Group has not made use of the option to designate financial assets as at fair value through profit or loss on initial recognition.

Derivatives, including separately recognised embedded derivatives, are classified as held for trading unless they are derivatives designated as hedging instruments and are determined to be effective. Gains and losses on financial assets held for trading are recognised in the income statement. At the time the DEUTZ Group first becomes a party to a contract, it determines whether an embedded derivative needs to be accounted for separately from the host contract. This decision is only reassessed if there is a substantial amendment to the terms of the contract and this amendment results in a significant change to the cash flows that would otherwise have been derived from the contract.

**Loans and receivables** Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not traded in an active market. This category comprises trade receivables as well as other receivables and assets. They arise when the DEUTZ Group provides money, goods or services directly to a customer or other debtor. They are classified as current assets, except for those that do not fall due until twelve months or more after the balance sheet date, in which case they are reported as non-current assets. After initial recognition, loans and receivables are measured at amortised cost using the effective interest method less any necessary write-downs. A gain or loss is recognised in profit or loss when the loan or receivable is derecognised or written down, and through the amortisation process.

**Available-for-sale financial assets** Available-for-sale financial assets are those non-derivative financial assets that are designated as available for sale or are not classified in one of the other categories stipulated in IAS 39. After initial measurement, available-for-sale financial assets are measured at fair value. Financial assets whose fair value cannot be determined either using generally accepted measurement methods (e.g.

discounted cash flow) or from their market prices are recognised at amortised cost. Unrealised gains and losses are recognised in other comprehensive income. If a financial asset in this category is derecognised or written down, any cumulative gains or losses previously recognised in other comprehensive income are reclassified to the income statement.

## IMPAIRMENT OF FINANCIAL ASSETS

At every balance sheet date, financial assets (with the exception of financial assets at fair value through profit or loss) are subjected to an impairment test to establish whether there are any indications of impairment (for example, substantial financial difficulties on the part of the debtor, significant probability of insolvency proceedings against the debtor, the disappearance of an active market for the financial asset, significant changes in the technological, economic, legal and/or market environment in which the issuer operates, a sustained fall in the fair value of the financial asset below amortised cost).

**Financial assets accounted for at amortised cost** If there are objective indications that a financial asset accounted for at amortised cost is impaired, the amount of the impairment loss is determined as the difference between the carrying amount of the asset and the present value of the estimated future cash flows (with the exception of estimated future loan defaults that have not yet occurred), the discount rate being the original effective interest rate for the financial asset, i.e. the effective interest rate determined on initial recognition. The impairment loss is recognised in the income statement.

If the amount of this impairment loss is found to be lower in subsequent reporting periods and this decrease can be attributed objectively to factors occurring after the recognition of the impairment loss, the previously recognised impairment loss is reversed. However, the new carrying amount of the asset must not exceed what the amortised cost would have been at the time the impairment loss is reversed if the impairment loss had not been recognised. The reversal of the impairment loss is recognised in the income statement.

In the case of trade receivables, if there are objective indications that not all due and payable amounts will be received in accordance with the originally agreed invoicing terms and conditions (for example, insufficient creditworthiness on the part of the debtor, dispute regarding the existence or amount of the receivable, legal reasons preventing the enforcement of the

receivable, etc.) an impairment loss is recognised on a valuation allowance account. Receivables classified as uncollectible are then derecognised.

If other receivables or assets are found to be impaired, a direct write-down is applied to the relevant carrying amounts.

**Available-for-sale financial assets** If an available-for-sale financial asset is impaired, an amount equal to the difference between the cost and the current fair value (less any impairment losses on that asset already recognised in the income statement at an earlier point) is reclassified from other comprehensive income to the income statement. Reversals of impairment losses on equity instruments classified as available for sale are not recognised in the income statement. Impairment losses related to available-for-sale equity instruments that are not publicly traded and that are recognised at cost must not be reversed. The reversal of impairment losses on debt instruments classified as available for sale are recognised in the income statement if the increase in fair value can be objectively related to an event that occurred after the impairment loss was recognised in the income statement.

## CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash on hand, short-term deposits with an original term of up to three months, and credit balances held with banks.

## FINANCIAL LIABILITIES

In the DEUTZ Group, financial liabilities within the meaning of IAS 39 can be in either of the following categories:

- financial liabilities at fair value through profit or loss, or
- other financial liabilities.

**Financial liabilities at fair value through profit or loss** In the DEUTZ Group, the group of financial liabilities at fair value through profit or loss includes held-for-trading financial liabilities. To date, the DEUTZ Group has not made use of the option to designate financial liabilities as at fair value through profit or loss on initial recognition.

Derivatives, including separately recognised embedded derivatives, are classified as held for trading unless they are derivatives designated as hedging instruments and determined to be effective. If the fair value of these derivatives is negative, they

are recognised under financial liabilities. Gains and losses on financial liabilities held for trading are recognised in the income statement.

**Other financial liabilities** in the DEUTZ Group for the most part comprise the following:

- financial debt (liabilities to banks),
- trade payables and
- other liabilities.

Other financial liabilities are classified as current unless the DEUTZ Group does not have the right to settle the liability until at least twelve months after the balance sheet date.

Other financial liabilities are initially recognised at their fair value including transaction costs. They are subsequently measured at amortised cost using the effective interest method.

## DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGES

DEUTZ only uses derivative financial instruments (interest-rate and currency derivatives) for hedging purposes as part of its business operations, in particular to reduce foreign currency risk in forecast transactions involving foreign currencies and to reduce interest-rate risk through the use of interest-rate swaps.

Derivatives are initially recognised at their fair value on the day they are entered into and are subsequently measured at the fair value prevailing at the time. The fair value of derivatives corresponds to the present value of estimated future cash flows. The fair value of currency forwards is based on the forward exchange rate as at the balance sheet date.

Changes in the fair value of non-hedging derivatives are immediately recognised in the income statement.

**Cash flow hedges** Forecast transactions (cash flows) in foreign currency and interest-rate risk are hedged using cash flow hedges. The effective portion of the changes in the fair value of derivatives designated as cash flow hedges is recognised in other comprehensive income. The ineffective portion of the changes in fair value is reported in the income statement under other income or other expenses.

The changes in fair value reported in the reserve for cash flow hedges are reclassified to the income statement in the period in which the hedged item is recognised in income.

The market values of derivatives designated as cash flow hedges are stated in Note 25. Changes in the cash flow hedge reserve are reported under a separate item in other comprehensive income (fair value reserve).

## PROVISIONS FOR PENSIONS AND OTHER POST-RETIREMENT BENEFITS

The occupational pension scheme offered by the DEUTZ Group takes account of the relevant legislation in various countries and the benefits that each company provides for its staff.

Occupational pensions take the form of **defined benefit pension plans**, which are funded by the recognition of pension provisions. Since pension plans in Germany were closed to new members in 1995, employees in Germany can no longer acquire any further employer-funded pension entitlements. Currently, therefore, existing pension entitlements are simply increased each year by unwinding the discount applied to calculate the present value of the obligation, or they are paid out. Besides entitlements to an employer-funded pension, employees in Germany can build up an employee-funded pension by participating in a deferred compensation plan. There is one funded pension plan in the UK (branch of DEUTZ AG), and the subsidiaries in the US and France have pension liabilities. The pension plans outside Germany are employer-funded entitlements.

The Group's liabilities arising from employer-funded defined benefit pension plans are calculated separately for each plan using actuarial principles. First, the pension benefits vested in earlier periods and in the current period are estimated. The next step is to discount these benefits using the projected unit credit method. The resulting present value represents the defined benefit obligation. The fair value of the plan asset is then deducted from the defined benefit obligation to determine the net liability to be reported on the balance sheet.

The interest rate used to discount the estimated pension benefits is determined using the yields available in the market on each valuation date for investment-grade, fixed-income corporate paper. The currency and terms to maturity of the underlying corporate paper match the currency and predicted duration of the post-retirement pension liabilities to be met.

The net interest cost is calculated by multiplying the net liability at the beginning of the reporting period by the interest rate used to discount the pension obligations at the beginning of the period.

The effects of the revaluation include the actuarial gains and losses on the valuation of the gross defined benefit obligation and the difference between the actual return on plan assets and the typical return on plan assets assumed at the beginning of the period when calculating the net interest cost.

While the revaluation effects are recognised in other comprehensive income, the net interest cost and the current service cost are reported as gains or losses in the reporting period. Net interest cost is reported in operating profit.

The calculation of the individual cost components in the net liability to be reported on the balance sheet on each reporting date is based on a report by a qualified actuary.

In the case of the employee-funded deferred compensation plan, the Company has taken out a reinsurance policy with a life insurance company based on the amount of salary contribution and undertakes to pay a pension based on the guaranteed capital that has been underwritten. The present value of the benefit obligation corresponds to the fair value of the entitlements to reinsurance cover on the basis of the asset values calculated by the insurer. For the purposes of recognition on the balance sheet, the present value of the benefit obligation is offset against the fair value of the entitlements to reinsurance cover in an equal amount.

As well as defined benefit pension plans, there are also **defined contribution pension plans** (e.g. direct insurance policies). The mandatory contributions are immediately recognised as staff costs. In this case, the recognition of provisions is not required because the DEUTZ Group has no obligation apart from the obligation to pay premiums.

## OTHER PROVISIONS

Other provisions are recognised if there are legal or constructive obligations towards third parties that arise from past events and are likely to result in cash outflows. Furthermore, it must be possible to estimate the obligation reliably. Provisions are recognised at their settlement value calculated at the balance sheet date and take account of projected cost increases. Non-current provisions are discounted. Provisions for warranty obligations are recognised when products are sold or when new warranties are initiated. The measurement of potential warranty liabilities is based primarily on historical experience.

## CONTINGENT LIABILITIES

Contingent liabilities are potential obligations that arise from past events and whose existence will only be confirmed by the occurrence of one or more uncertain future events that, however, are beyond the control of the DEUTZ Group. Furthermore, present obligations may constitute contingent liabilities if it is not probable that an outflow of resources will be required to settle the obligation, or a sufficiently reliable estimate of the amount of the obligation cannot be made.

## NOTES TO THE INCOME STATEMENT

### 1. REVENUE

The table below gives a breakdown of revenue for the DEUTZ Group:

€ million	2015	2014
Engines	969.0	1,270.9
Service	278.4	259.3
<b>Total</b>	<b>1,247.4</b>	<b>1,530.2</b>

The breakdown of revenue by segment and region is shown in the notes on segment reporting on page 102 et seq.

### 2. FUNCTIONAL COSTS

The cost of sales largely consisted of the cost of materials, staff costs, depreciation on property, plant and equipment, and warranty costs.

Research and development costs mainly comprised amortisation on completed development projects, staff costs and the cost of materials. Costs that were charged on and capitalised development expenditure were deducted.

Selling and administrative expenses mainly consisted of staff costs.

### 3. OTHER OPERATING INCOME

€ million	2015	2014
Exchange rate gains	13.3	8.2
Income from recharged costs and services	6.2	10.1
Income from the disposal of investments and deconsolidation	3.9	–
Income from the disposal of non-current assets	0.3	0.2
Income from the measurement of derivatives	1.4	0.8
Income from the reversal of provisions	1.1	0.7
Income from the derecognition of liabilities	0.5	0.4
Rentals and leases	0.1	0.1
Sundry other income	2.5	2.4
<b>Total</b>	<b>29.3</b>	<b>22.9</b>

The increase in other operating income was primarily the result of positive effects arising from the translation of foreign-currency positions. The income from the disposal of investments and deconsolidation relates to the disposal of the shares in WEIFANG WEICHAI-DEUTZ DIESEL ENGINE CO., LTD., Weifang, China, and the deconsolidation of the subsidiary DEUTZ Engine (China) Co., Ltd. Linyi, China.

### 4. OTHER OPERATING EXPENSES

€ million	2015	2014
Exchange rate losses	13.6	8.3
Net interest cost for provisions for pensions and other post-retirement benefits	3.7	5.8
Other expenses from the adjustment of provisions	3.5	1.5
Other cost of fees, contributions and advice	1.5	1.6
Expenses in connection with the measurement of derivatives	1.2	0.8
Rental and lease expenses	0.7	0.7
Restructuring costs	–	17.1
Sundry other expenses	6.4	5.6
<b>Total</b>	<b>30.6</b>	<b>41.4</b>

The decrease in other operating expenses was due to provisions having been recognised for restructuring measures in the previous year. There were no such expenses in the year under review.

### 5. PROFIT/LOSS ON EQUITY-ACCOUNTED INVESTMENTS AND OTHER INVESTMENT INCOME

€ million	2015	2014
<b>Profit/loss on equity-accounted investments</b>		
Income from equity-accounted investments	0.7	4.1
Expenses relating to equity-accounted investments	–7.0	–2.2
<b>Total</b>	<b>–6.3</b>	<b>1.9</b>
<b>Other investment income</b>	<b>1.0</b>	<b>1.1</b>
<b>Total</b>	<b>–5.3</b>	<b>3.0</b>

Income from equity-accounted investments consisted of DEUTZ AG's share in the profits of its associate D.D. Power Holdings, South Africa.

The expenses relating to equity-accounted investments were attributable to the share of the loss of the joint venture DEUTZ (Dalian) Engine Co., Ltd., Dalian, China. In 2014, the joint venture had made a contribution to profits.

As in the previous year, other net investment income related to profits transferred by DEUTZ Sicherheit GmbH, Cologne.

## 6. ONE-OFF ITEMS

There were no one-off items in the year under review. The one-off items in the prior year had largely arisen in conjunction with measures to optimise our network of sites.

## 7. INTEREST EXPENSES, NET

€ million	2015	2014
Interest income on credit balances with banks	0.1	0.1
Other interest income	0.7	0.5
<b>Interest income</b>	<b>0.8</b>	<b>0.6</b>
Interest paid on liabilities to banks	-2.9	-3.7
Interest paid on sales of receivables	-1.1	-2.3
Other interest expense and similar charges	-0.8	-0.7
<b>Interest expense and similar charges (finance costs)</b>	<b>-4.8</b>	<b>-6.7</b>
<b>Interest expenses, net</b>	<b>-4.0</b>	<b>-6.1</b>

No borrowing costs were capitalised in either the year under review or the previous year.

## 8. TAXES

**Income taxes** The following table gives a breakdown of income taxes:

€ million	2015	2014
Current tax expense	5.7	9.1
thereof unrelated to the reporting period	-0.6	0.1
Deferred taxes	-8.3	-21.9
thereof from temporary differences	-7.5	-20.8
thereof from loss carryforwards	-0.8	-1.1
<b>Total income taxes</b>	<b>-2.6</b>	<b>-12.8</b>

The current income tax expenses of €5.7 million predominantly related to additions to provisions for anticipated tax payments on current income generated by Group companies in 2015.

The deferred tax income included income of €7.5 million arising from temporary differences (2014: €20.8 million). This resulted, in particular, from the reduction of deferred tax liabilities in connection with the capitalisation of development expenditure under IFRS.

There are no income tax implications for DEUTZ AG arising from the distribution of dividends to shareholders by DEUTZ AG.

The tax reconciliation table shows the reconciliation from anticipated income taxes to effective taxes as shown in the income statement. Effective income taxes include current and deferred taxes. The applicable tax rate is 31.61 per cent (2014: 31.65 per cent) comprising corporation tax at 15 per cent, the solidarity surcharge (5.50 per cent of the corporation tax) and trade tax at 15.78 per cent based on an average assessment rate.

€ million	2015	2014
<b>Net income before income taxes</b>	<b>0.9</b>	<b>6.7</b>
Anticipated tax	0.3	2.1
Difference in local basis of assessment	0.3	0.3
Tax rates outside Germany	-0.2	-0.2
Changes arising from the recognition of deferred taxes on loss carryforwards and on temporary differences and the utilisation of loss carryforwards	-2.6	-7.0
Effect of non-deductible expenses	-0.4	2.8
Share of profit (loss) of equity-accounted investments	2.1	-0.8
Effect of tax-exempt income	-0.8	-1.0
Effects not related to the reporting period		
Prior-year tax payments	-0.6	0.1
Deferred taxes resulting from prior-year adjustments	-0.6	-9.7
Other	-0.1	0.6
<b>Effective tax income</b>	<b>-2.6</b>	<b>-12.8</b>
<b>Effective tax rate (%)</b>	<b>-288.9</b>	<b>-191.0</b>

The change arising from the recognition of deferred taxes on loss carryforwards and on temporary differences and the utilisation of loss carryforwards was largely attributable to the utilisation of loss carryforwards in the reporting year.

## 9. EARNINGS PER SHARE

Earnings per share is calculated in accordance with IAS 33. The DEUTZ Group calculates basic earnings per share by dividing the net income attributable to its shares by the weighted average number of shares outstanding.

There were no dilutive effects in 2015 or 2014.

	2015	2014
Net income attributable to shareholders of DEUTZ AG (€ thousand)	5,345	21,163
Weighted average number of shares outstanding (thousands)	120,862	120,862
<b>Earnings per share (€)</b>	<b>0.04</b>	<b>0.18</b>

## NOTES TO THE STATEMENT OF COMPREHENSIVE INCOME

### 10. OTHER COMPREHENSIVE INCOME

Other comprehensive income comprises the elements of the statement of comprehensive income not reported in the income statement. The taxes resulting from other comprehensive income are shown in the following table:

€ million	2015			2014		
	Before taxes	Taxes	After taxes	Before taxes	Taxes	After taxes
<b>Amounts that will not be reclassified to the income statement in the future</b>	<b>4.6</b>	<b>-1.5</b>	<b>3.1</b>	<b>-26.6</b>	<b>8.5</b>	<b>-18.1</b>
Remeasurements of defined benefit plans	4.6	-1.5	3.1	-26.6	8.5	-18.1
<b>Amounts that will be reclassified to the income statement in the future if specific conditions are met</b>	<b>4.5</b>	<b>-0.6</b>	<b>3.9</b>	<b>12.6</b>	<b>0.8</b>	<b>13.4</b>
Currency translation differences	2.8	-	2.8	15.1	-	15.1
Effective portion of change in fair value from cash flow hedges	1.9	-0.6	1.3	-2.5	0.8	-1.7
Change in fair value of available-for-sale financial instruments	-0.2	-	-0.2	-	-	-
<b>Other comprehensive income</b>	<b>9.1</b>	<b>-2.1</b>	<b>7.0</b>	<b>-14.0</b>	<b>9.3</b>	<b>-4.7</b>

In 2015, losses of €8.1 million on cash flow hedges (2014: gains of €1.0 million) recognised in other comprehensive income during the year (prior to the inclusion of deferred taxes) were reclassified to other operating expenses or other operating income in the consolidated income statement.

Additions to property, plant and equipment mainly related to measures aimed at optimising our network of sites, such as the construction of a shaft centre in Cologne-Porz. There were also additions in connection with replacement investments.

Government grants at our Spanish subsidiary were deducted from the cost of purchasing the property, plant and equipment. Total government grants recognised at 31 December 2015 amounted to €1.9 million (31 December 2014: €2.5 million). In 2015, grants of €0.6 million (2014: €0.6 million) were reclassified to the income statement (as a reduction of the depreciation expense).

Purchase commitments for property, plant and equipment are described on page 114.

## 12. INTANGIBLE ASSETS

<b>Balance at 31 Dec 2014</b>	<b>205.1</b>	<b>-</b>	<b>110.2</b>	<b>315.3</b>
<b>Net carrying amount at 31 Dec 2014</b>	<b>199.4</b>	<b>-</b>	<b>12.3</b>	<b>211.7</b>

Other intangible assets mainly comprise grants for tool costs, licences, purchased development services and software.

Under internally generated intangible assets, the additions largely relate to the capitalisation of development expenditure relating to the development of new engines and the refinement of existing models.

The impairment losses recognised on completed intangible assets and on intangible assets in development in 2015 related to our engine series with a capacity of 4 to 8 litres and of over 8 litres, and they largely resulted from changes in market forecasts. The impairment testing of these intangible assets was carried out at the level of the cash-generating units that represent each engine series. The recoverable amounts determined on the basis of their values in use amounted to €0.0 million and €10.8 million respectively at the end of the year. The impairment losses calculated in 2015 were €4.9 million and €2.5 million respectively. The respective pre-tax discount rates underlying the calculations were 9.2 per cent and 9.6 per cent. Of the impairment losses of €2.5 million recognised on our engine series with a capacity of over 8 litres, losses of €1.9 million had already been recognised as at 30 June 2015 following an impairment test.

In 2014, impairment losses had been recognised on completed intangible assets of €6.8 million and €2.4 million respectively. The impairment testing of these intangible assets was also carried out at the level of the cash-generating units that represent each engine series. The recoverable amounts determined on the basis of their values in use amounted to €14.8 million and €0.0 million. The respective pre-tax discount rates underlying the calculations were 7.4 per cent and 8.0 per cent.

### 13. EQUITY-ACCOUNTED INVESTMENTS

The shares held by the DEUTZ Group in associates and joint ventures, none of which are listed companies, are as follows:

€ million	2015	2014
<b>1 Jan</b>	<b>52.4</b>	<b>46.0</b>
Additions	–	–
Pro-rata profit/loss on equity-accounted investments	–6.3	3.7
Disposals	–	–
Impairment	–	–1.8
Other changes arising from measurement using the equity method	2.4	4.5
<b>31 Dec</b>	<b>48.5</b>	<b>52.4</b>

A summary of further financial information about associates and joint ventures is provided in Note 26 'Interests in other entities'.

### 14. OTHER FINANCIAL ASSETS (NON-CURRENT)

€ million	31 Dec 2015	31 Dec 2014
Equity investments	0.2	0.2
Non-current securities	2.9	2.7
Cost of borrowing	1.2	1.4
Loans	1.3	1.3
Other	0.8	2.0
<b>Total</b>	<b>6.4</b>	<b>7.6</b>

#### Non-current securities

This line item on the balance sheet includes securities in the form of equities and bonds. The securities are used to hedge the pension obligations of the Group company DEUTZ Corporation, Atlanta, USA.

#### Cost of borrowing

The cost of borrowing directly associated with the working capital facility is accounted for as a non-current asset and is recognised in the income statement in instalments over the capital commitment period. The financial debt (including the pro rata cost of borrowing) is recognised when the working capital facility is drawn down as a loan and is subsequently measured using the effective interest method.

## 15. DEFERRED TAXES, CURRENT TAX ASSETS AND LIABILITIES

At the balance sheet date, DEUTZ AG had unutilised tax losses carried forward of €698.4 million for corporation tax (2014: €714.6 million) and €787.6 million for trade tax (2014: €804.8 million). The figures stated in 2014 for tax loss carryforwards (corporation tax: €714.4 million; trade tax €803.3 million) were restated as a result of information gained during tax audits for previous years.

Further tax loss carryforwards were also available to international companies in the Group.

The following table gives a breakdown of the deferred tax assets and liabilities and the current tax assets and liabilities reported on the balance sheet:

€ million	31 Dec 2015	31 Dec 2014
<b>Non-current</b>		
Deferred tax assets	69.1	62.2
Deferred tax liabilities	–	–
<b>Current</b>		
Current tax assets	4.3	0.8
Provision for income taxes	7.5	7.8
Income tax liabilities	0.5	0.5

In 2015, the deferred tax assets net of deferred tax liabilities amounted to €69.1 million. They were largely the result of capitalising deferred tax assets on tax losses carried forward and of temporary differences, particularly those between the carrying amount of provisions for pensions and other post-retirement benefits in the consolidated balance sheet and their tax base in the financial statements of DEUTZ AG. Deferred tax assets from items recognised in other comprehensive income amounted to €17.8 million for provisions for pensions and other post-retirement benefits and €0.3 million for measurement of cash flow hedges.

The following table shows the breakdown of deferred tax assets and liabilities:

€ million	31 Dec 2015		31 Dec 2014	
	Assets	Liabilities	Assets	Liabilities
Intangible assets	–	52.4	–	63.1
Property, plant and equipment	10.8	3.3	12.1	3.9
Equity-accounted investments and financial assets	0.5	–	0.5	–
Inventories	10.9	0.1	7.4	0.1
Receivables and other assets	3.4	–	3.1	–
Pensions	24.0	–	27.9	–
Other liabilities	7.2	0.2	11.2	0.1
Tax loss carryforwards	68.3	–	67.5	–
Other	–	–	–	0.3
<b>Deferred taxes (gross)</b>	<b>125.1</b>	<b>56.0</b>	<b>129.7</b>	<b>67.5</b>
Netting	56.0	56.0	67.5	67.5
<b>Deferred taxes (net)</b>	<b>69.1</b>	<b>–</b>	<b>62.2</b>	<b>–</b>

The tax asset in excess of deferred tax liabilities – for which sufficient taxable profit will be available in future based on tax budgets – amounted to €69.1 million (31 December 2014: €62.2 million).

The decrease in deferred taxes in respect of temporary differences, which was recognised in other comprehensive income, was €1.4 million at 31 December 2015 (31 December 2014: increase of €9.5 million) and largely resulted from changes in provisions for pensions.

As at 31 December 2015, the DEUTZ Group had not recognised any deferred tax liabilities on temporary differences of €24.3 million (31 December 2014: €49.2 million) in respect of taxes on untransferred profits from subsidiaries, associates or joint ventures because the timing of the reversal of the differences can be controlled or the sums are mostly tax exempt and no material impact on taxes is expected in the near future.

Deferred tax assets are only recognised to the extent that sufficient future taxable income is likely to be generated over a certain planning period against which the as yet unused tax loss carryforwards can be offset. Consequently, as well as tax loss carryforwards on which deferred taxes have been recognised, there are loss carryforwards for which deferred taxes have not been recognised because the losses cannot be utilised. The following table shows the amounts and expiry dates of the tax loss carryforwards:

**Loss carryforwards on which deferred taxes have not been recognised**

€ million	31 Dec 2015	31 Dec 2014
Corporation tax/ solidarity surcharge	504.5	519.9
Trade tax	578.7	592.7

**Thereof: expiry periods for German and international loss carryforwards**

€ million	31 Dec 2015	31 Dec 2014
Up to 5 years	–	–
6 to 9 years	–	–
Indefinite		
Corporation tax/ solidarity surcharge	504.5	519.9
Trade tax	578.7	592.7

The figure stated in 2014 for loss carryforwards on which deferred taxes had not been recognised in full was restated, mainly as a result of information gained during the tax audit for previous years.

## 16. INVENTORIES

€ million	31 Dec 2015	31 Dec 2014
Raw materials, consumables, bought-in parts and spare parts	129.1	122.5
Work in progress	47.1	41.7
Finished goods	75.7	81.0
<b>Total</b>	<b>251.9</b>	<b>245.2</b>

Write-downs on raw materials, bought-in parts and spare parts totalled €5.3 million in the reporting year (2014: €7.6 million). As at 31 December 2015, the carrying amount of inventories written down to net realisable value was €74.7 million (31 December 2014: €78.7 million).

The following table shows the change in the valuation allowance account for inventories:

€ million	2015	2014
<b>1 Jan</b>	<b>26.1</b>	<b>29.3</b>
Changes	4.3	–3.2
<b>31 Dec</b>	<b>30.4</b>	<b>26.1</b>

The amount recognised as an expense relating to inventories in 2015 was €1,054.8 million (2014: €1,327.6 million) and it represents the cost of sales for the year.

## 17. RECEIVABLES AND OTHER ASSETS (EXCLUDING INCOME TAX ASSETS)

€ million	31 Dec 2015	31 Dec 2014
Trade receivables	103.6	127.0
Less write-downs	–2.4	–5.0
<b>Trade receivables (net)</b>	<b>101.2</b>	<b>122.0</b>
<b>Other receivables and assets</b>		
Receivables due from investments	0.9	0.8
thereof trade receivables	0.2	0.8
thereof other receivables	0.7	–
Advances paid	0.1	0.1
Outstanding contributions from non-controlling interests	–	16.2
Receivables remaining after sale of receivables	3.1	2.4
Receivables arising from other taxes	5.1	6.5
Sundry other receivables	17.6	25.9
Prepaid expenses	1.4	1.4
<b>Total</b>	<b>28.2</b>	<b>53.3</b>

As at 31 December 2015, the volume of receivables sold under factoring agreements was €99.1 million (31 December 2014: €107.1 million). Essentially, all the opportunities and risks connected with title to the receivables that were sold were transferred to the factor. While the entire credit risk was transferred, a risk of late payment remains, but it is not material so the receivables were not reported in the consolidated financial statements of DEUTZ AG. The remaining exposure in respect of the receivables that have been assigned is largely limited to the administration and collection of these receivables. As at 31 December 2015, the Group had access to factoring lines totalling €196.0 million (31 December 2014: €195.0 million). They are revolving lines. In 2015, interest expense of €1.1 million (2014: €2.3 million) was recognised in connection with the sale of receivables.

As at 31 December 2015, the receivables sold were offset by receivables amounting to €3.1 million due from one factor (31 December 2014: €2.4 million). The fair value of these receivables was also €3.1 million (31 December 2014: €2.4 million). The risk arising from the factoring transaction was the credit risk of the factor, which was lower than the credit risk of the original debtors. The maximum downside risk as at 31 December 2015 was limited to the amount receivable of €3.1 million.

Trade receivables with a principal amount of €11.7 million were written down as at 31 December 2015 (31 December 2014: €14.2 million). The following table shows the change in the valuation allowance account:

€ million	31 Dec 2015	31 Dec 2014
<b>Balance at 1 Jan</b>	<b>5.0</b>	<b>5.7</b>
Additions	0.3	1.0
Utilised	-2.4	-0.8
Reversals	-0.5	-0.9
<b>Balance at 31 Dec</b>	<b>2.4</b>	<b>5.0</b>

If other receivables or assets are found to be impaired, a direct write-down is applied to the relevant carrying amounts. Total impairment losses of €28.1 million were recognised on receivables and other assets as at 31 December 2015 (31 December 2014: €30.0 million).

## 18. CASH AND CASH EQUIVALENTS

As at 31 December 2015, cash and cash equivalents including cash on hand, short-term deposits and credit balances with banks amounted to €112.5 million (31 December 2014: €101.7 million). There were no access restrictions, as had also been the case in the previous year.

## 19. NON-CURRENT ASSETS CLASSIFIED AS HELD FOR SALE

The non-current assets classified as held for sale as at 31 December 2015 relate to the land and buildings of Deutz-Mülheim Grundstücksgesellschaft mbH, Düsseldorf, which are situated in Cologne. The land and buildings of Deutz-Mülheim Grundstücksgesellschaft mbH are allocated to the DEUTZ Compact Engines segment.

## 20. EQUITY

€ million	31 Dec 2015	31 Dec 2014
Issued capital	309.0	309.0
Additional paid-in capital	28.8	28.8
Other reserves	18.3	13.7
Retained earnings and accumulated income	134.3	134.3
Equity attributable to the shareholders of the parent	490.4	485.8
Non-controlling interests	5.2	25.2
<b>Total</b>	<b>495.6</b>	<b>511.0</b>

## Issued capital

At the end of 2015, the issued capital (share capital) of DEUTZ AG amounted to €308,978,241.98 (unchanged on the end of 2014) and was divided into 120,861,783 no-par-value bearer shares (also unchanged).

## Additional paid-in capital

The additional paid-in capital contains premiums and contributions from shareholders as well as the equity component of compound financial instruments such as non-interest-bearing convertible profit-sharing rights and low-interest-bearing convertible bonds. The value of the conversion right linked to previous profit-sharing rights and bonds was recognised in equity on the issue date at fair value less pro rata transaction costs, taking account of deferred taxes.

## Other reserves

**Currency translation** Translation differences allocated to the shareholders of DEUTZ AG arising from the translation of equity at historical rates and the translation of the net income or loss at average rates for the year are reported under accumulated other comprehensive income/loss. In the year under review, this item increased other comprehensive income by €3.5 million (2014: increase of €12.6 million). The cumulative gain on translation differences recognised in other reserves amounted to €18.7 million at the end of 2015 (31 December 2014: gain of €15.2 million recognised). Total differences arising from currency translation amounted to a gain of €2.8 million (2014: gain of €15.1 million), of which a loss of €0.7 million was attributable to non-controlling interests (2014: gain of €2.5 million).

**Fair value reserve** This reserve is used for the recognition of changes in the fair value of available-for-sale financial instruments. That portion of the gain or loss on a cash flow hedging instrument determined to be an effective hedge is also recognised in the fair value reserve.

## Retained earnings and accumulated income

This item includes DEUTZ AG's legal reserve of €4.5 million (31 December 2014: €4.5 million).

## Non-controlling interests

Non-controlling interests relate to the 30 per cent equity investment held by Shandong Changlin Machinery Group Co., Ltd. in DEUTZ Engine (Shandong) Co., Ltd., Linyi, China.

The decision to wind up DEUTZ Engine (China) Co., Ltd. in Linyi, China, cancelled the outstanding obligation of the AB Volvo Group, our joint venture partner, to make a contribution of €14.8 million to the joint venture's issued capital. In addition, €2.6 million of the capital contribution already made was repaid.

## Dividend

According to the German Stock Corporation Act (AktG), the dividend is paid from the accumulated income reported in the annual financial statements of DEUTZ AG prepared in accordance with the German Commercial Code (HGB). In 2015, DEUTZ AG distributed a dividend of €8.5 million to its shareholders (€0.07 per share) from the accumulated income reported for 2014.

The Board of Management proposes using €8.5 million of the accumulated income reported by DEUTZ AG for the 2015 financial year to pay a dividend of €0.07 per no-par-value share.

## 21. PROVISIONS FOR PENSIONS AND OTHER POST-RETIREMENT BENEFITS

DEUTZ AG has both defined contribution plans and defined benefit plans for its employees.

### Defined contribution plans

Employees in Germany receive statutory social insurance benefits for which contributions are paid as part of income. At DEUTZ, there are also further direct insurance policies that are financed by employees. These plans are treated as defined contribution plans because the Company has no obligation beyond the payment of contributions to private insurers. Ongoing contribution payments are reported as an expense for the period concerned.

The employer's contribution to the German statutory pension insurance scheme in 2015 came to €15.6 million (2014: €16.4 million). In addition, a further €2.3 million (2014: €2.6 million) was paid for pension and direct insurance policies in connection with deferred compensation.

### Defined benefit plans

The DEUTZ Group maintains several defined benefit pension plans in Germany and abroad. The largest pension plans are in Germany and the UK. Together, they accounted for more than 95 per cent of defined benefit obligations and 100 per cent of plan assets, as was the case in 2014.

In all, there are three defined benefit pension plans in Germany. While two of the plans are employer funded, the third is a deferred compensation plan. As a rule, the employer-funded pension plans comprise a general employee retirement pension for life, a disability pension and a surviving dependants' pension. The level of the monthly pension paid under the

employer-funded pension plans is based on earned income and years of service in the DEUTZ Group. No employer-funded pension entitlements have been granted to new employees joining the DEUTZ Group since 1995. In the case of the deferred compensation plan, the Company has taken out a reinsurance policy with a life insurance company based on the amount of salary contribution and undertakes to pay a pension based on the guaranteed capital that has been underwritten. In Germany, occupational pension schemes are governed by the Occupational Pensions Act (BetrAVG), according to which the DEUTZ Group has sole responsibility for meeting the requirements of defined benefit pension plans. The normal retirement age is 67.

The existing defined benefit plan in the UK entitles pension beneficiaries to a pension which depends on the level of their basic salary and the number of eligible years of service. The retirement age is between 62 and 65. The pension scheme is closed to new members. The annual pension paid is between 1/55 and 1/60 of the highest basic salary received in the final five years of service for each eligible year of service. The pension plan is primarily funded by converting pension beneficiaries' basic salary and employer contributions into plan assets. The DEUTZ Group undertakes to compensate for any shortfall in the scheme. Every year, the amount for which the Company is liable is determined with reference to a report by an independent pensions actuary.

According to legislation in the UK, the pension plan, including the plan assets, must be administered by independent trustees. The investment policy for the pension plan specifies that 50 per cent of the accumulated plan assets must be invested in equity instruments and 50 per cent in debt instruments. This investment strategy is specifically intended to counteract capital market risk and the associated risk of mismatches between the Company's payment obligations arising from the pension plan on the one hand and the plan assets on the other.

In connection with the defined benefit pension plans, the Group is exposed to capital market risk arising from its investment of the plan's assets in addition to general actuarial risks such as interest-rate risk, the risk of rising annuity rates and longevity risk.

**Funded status of pension plans**

€ million	2015	2014
Pension plans in Germany		
Present value of defined benefit obligation	182.0	197.3
Fair value of plan assets	4.9	4.7
<b>Deficit (net liability)</b>	<b>177.1</b>	<b>192.6</b>
Pension plans in the UK		
Present value of defined benefit obligation	26.7	26.1
Fair value of plan assets	22.9	21.8
<b>Deficit (net liability)</b>	<b>3.8</b>	<b>4.3</b>
Other pension plans		
Present value of defined benefit obligation	5.7	4.9
Fair value of plan assets	–	–
<b>Deficit (net liability)</b>	<b>5.7</b>	<b>4.9</b>
Total		
Present value of defined benefit obligation	214.4	228.3
Fair value of plan assets	27.8	26.5
<b>Deficit (net liability)</b>	<b>186.6</b>	<b>201.8</b>

The following table shows the breakdown of separate groups to which the pension plans in Germany and the UK have obligations to pay benefits:

**Breakdown of defined benefit obligation by beneficiary**

€ million	2015	2014
Pension plans in Germany		
Active members	11.7	13.2
Deferred members	12.8	16.2
Pensioners	157.5	167.9
<b>Present value of defined benefit obligation</b>	<b>182.0</b>	<b>197.3</b>
Pension plans in the UK		
Active members	3.8	3.4
Deferred members	13.1	12.8
Pensioners	9.8	9.9
<b>Present value of defined benefit obligation</b>	<b>26.7</b>	<b>26.1</b>

The change in the net liability for defined benefit pension plans is shown in the table below:

**Change in the net liability for defined benefit pension plans**

€ million	2015	2014
<b>Net liability as at 1 Jan</b>	<b>201.8</b>	<b>183.5</b>
Amounts recognised on the income statement	3.9	5.9
Amounts recognised in other comprehensive income	–4.6	26.7
Employer contributions	–0.6	–0.5
Pension benefits paid	–14.6	–14.4
Effects of changes in foreign exchange rates	0.7	0.6
Reclassifications	–	–
<b>Net liability as at 31 Dec</b>	<b>186.6</b>	<b>201.8</b>

The following table shows the change in the present value of the defined benefit obligation:

**Change in present value of defined benefit obligation**

€ million	2015	2014
<b>Defined benefit obligation as at 1 Jan</b>	<b>228.3</b>	<b>207.0</b>
Service cost	0.2	0.1
Employee contributions	0.2	0.3
Interest expense	4.5	6.7
Remeasurements	–5.2	27.8
thereof: experience adjustments	–0.3	–0.8
thereof: actuarial (gains)/losses arising from changes in biometric assumptions	–	–
thereof: actuarial (gains)/losses arising from changes in financial assumptions	–4.9	28.6
Effects of changes in foreign exchange rates	2.0	2.0
Pension benefits paid	–15.6	–15.6
<b>Defined benefit obligation as at 31 Dec</b>	<b>214.4</b>	<b>228.3</b>

At 31 December 2015, the weighted average life of the bulk of the defined benefit obligation was 9.7 years (31 December 2014: 10.1 years).

The following two tables show the change in the fair value of the plan assets and the breakdown of the plan assets:

#### Change in fair value of plan assets

€ million	2015	2014
<b>Fair value of plan assets at 1 Jan</b>	<b>26.5</b>	<b>23.5</b>
Employer contributions	0.6	0.5
Employee contributions	0.2	0.3
Interest income	0.8	0.9
Return on (+)/expenses from (-) plan assets (excl. interest income)	-0.6	1.1
Pensions paid from plan assets	-1.0	-1.2
Currency translation differences	1.3	1.4
<b>Fair value of plan assets at 31 Dec</b>	<b>27.8</b>	<b>26.5</b>

#### Breakdown of plan assets

€ million	31 Dec 2015	31 Dec 2014
Cash and cash equivalents	-	0.2
Equity instruments (by region)		
UK	5.4	5.0
Europe (excl. UK)	1.8	1.8
North America	1.4	1.3
Japan	0.7	0.6
Asia-Pacific	0.7	0.6
Other	1.4	1.3
	11.5	10.6
Debt instruments		
Government bonds	3.9	3.8
Corporate bonds	7.5	7.2
	11.4	11.0
Reinsurance policies	4.9	4.7
<b>Total</b>	<b>27.8</b>	<b>26.5</b>

Market prices were available for all the equity and debt instruments because they are traded in active markets.

The breakdown of the portions of the net pension cost recognised in current income and expense for 2015 and 2014 is as follows:

#### Net pension cost

€ million	2015	2014
Current service cost	0.2	0.1
Interest expense	3.7	5.8
	<b>3.9</b>	<b>5.9</b>

The actual return on plan assets in 2015 was €0.2 million (2014: €2.0 million).

The measurement of pension obligations is based on actuaries' reports. The tables below show the main actuarial assumptions underlying the calculations for the defined benefit obligation as at the balance sheet date. The discount rates and pension increases are reported in the form of weighted averages.

#### Actuarial assumptions

%	2015	2014
Discount rate		
Germany	2.06	1.83
UK	3.90	3.60
Rate of pension increase		
Germany	2.00	2.00
UK	2.10	2.00

#### Mortality tables

Germany	Heubeck 2005G mortality tables
UK	S1 YoB (standard mortality tables for self-administered plans taking into account future changes in mortality)

The following sensitivity analysis for each material actuarial assumption as at the balance sheet date shows the impact that potential changes in the assumptions at the relevant balance sheet date would have on the defined benefit obligations in Germany and the UK.

#### Sensitivity analysis

2015	Impact on defined benefit obligation of:	
€ million	0.50% rise	0.50% fall
in discount rate		
Germany	-8.1	8.9
UK	-2.2	2.5
in rate of pension increase		
Germany	8.7	-7.9
UK	1.4	-1.4

**Sensitivity analysis**

2014 € million	Impact on defined benefit obligation of:	
	0.50% rise	0.50% fall
in discount rate		
Germany	-9.3	9.9
UK	-2.3	2.6
in rate of pension increase		
Germany	9.5	-9.1
UK	2.1	-1.8

Furthermore, we also believe that it is possible that the life expectancy of eligible DEUTZ employees will change. If the life expectancy of eligible DEUTZ employees had increased by one year, the increases in the defined benefit obligation arising from the pension plans in Germany and the UK as at 31 December 2015 would have been €15.4 million and €0.5 million respectively (31 December 2014: €16.4 million and €0.5 million respectively).

The sensitivity calculations are based on the average life of the pension obligations calculated as at 30 November 2015. In order to highlight the impact on the present value of the defined benefit obligations calculated as at 31 December 2015 separately, the calculations were carried out for each of the actuarial parameters deemed to be material and capable of changing.

**Future cash flows**

For 2016, the DEUTZ Group forecasts that its payments into pension plans will amount to €0.6 million (2015: €0.5 million).

**Expected benefit payments**

€ million	31 Dec 2015
2016	15.1
2017	14.6
2018	14.0
2019	13.4
2020	12.9
2021–2025	57.7

**Expected benefit payments**

€ million	31 Dec 2014
2015	15.3
2016	14.8
2017	14.3
2018	13.6
2019	13.0
2020–2024	58.9

**22. OTHER PROVISIONS**

The following table gives a breakdown of other provisions:

€ million	2015			2014		
	Total	Residual term of up to 1 year	Residual term of more than 1 year	Total	Residual term of up to 1 year	Residual term of more than 1 year
Warranties	72.2	43.5	28.7	85.4	44.6	40.8
Obligations to employees	12.4	4.8	7.6	10.1	5.2	4.9
Restructuring	10.7	3.0	7.7	16.9	6.7	10.2
Onerous contracts	3.4	3.4	–	2.1	2.1	–
Other	7.7	5.0	2.7	6.9	4.4	2.5
<b>Total</b>	<b>106.4</b>	<b>59.7</b>	<b>46.7</b>	<b>121.4</b>	<b>63.0</b>	<b>58.4</b>

Other provisions are recognised at their settlement value calculated as at the balance sheet date and take account of projected cost increases. Non-current provisions are discounted at a rate of 2.75 per cent (31 December 2014: 3.0 per cent).

Other provisions cover all identifiable risks and other contingent liabilities. The main items are the cost of warranties and potential risks, provisions for restructuring and provisions for obligations to employees and onerous contracts. The provisions for restructuring relate to our decision to optimise our network of sites.

The following table shows the changes to other provisions in 2015:

€ million	Warranties	Obligations to employees	Restructuring	Onerous contracts	Other	Total
<b>1 Jan 2015</b>	<b>85.4</b>	<b>10.1</b>	<b>16.9</b>	<b>2.1</b>	<b>6.9</b>	<b>121.4</b>
Additions	0.9	8.5	–	1.3	3.3	14.0

### 23. FINANCIAL DEBT

€ million	31 Dec 2015				31 Dec 2014			
	Total	Residual term up to 1 year	Residual term 1–5 years	Residual term > 5 years	Total	Residual term up to 1 year	Residual term 1–5 years	Residual term > 5 years
Liabilities to banks	71.7	14.7	57.0	–	86.0	14.7	60.7	10.6
Other financial debt	1.8	0.2	0.7	0.9	2.0	–	1.0	1.0
<b>Total</b>	<b>73.5</b>	<b>14.9</b>	<b>57.7</b>	<b>0.9</b>	<b>88.0</b>	<b>14.7</b>	<b>61.7</b>	<b>11.6</b>

#### Liabilities to banks

Liabilities to banks include a loan from the European Investment Bank with a remaining balance of €68.4 million. This unsecured loan is repayable in instalments until July 2020.

The syndicated working capital facility had not been drawn down as at 31 December 2015. This revolving line of credit for a total of €160 million provided by a consortium of banks is a floating-rate facility and is also unsecured. In 2015, its term was extended to May 2020.

As part of the contractual terms for both loans, DEUTZ is obliged to comply with certain financial covenants (ratio of financial debt to equity and ratio of financial debt to EBITDA).

Banco Bilbao Vizcaya Argentaria has also granted two loans via our Spanish subsidiary; they have a total remaining balance of €4.2 million. The interest rate on the loans is 1.78 per cent. Because the loans have been used for capital expenditure in Spain, finance costs up to an interest rate of 3.0 per cent are reimbursed by the Spanish government as part of a subsidy programme.

**Other financial debt**

Other financial debt comprises an interest-free government loan.

The fair value of financial debt is described in point 25 on page 103 et seq.

The weighted average interest rates (after hedging) of the financial debt are:

%	31 Dec 2015	31 Dec 2014
Liabilities to banks	2.87	2.89
Other financial debt	–	–

As in 2014, all current and non-current financial debt is denominated in euros.

**24. TRADE PAYABLES AND OTHER LIABILITIES**

€ million	31 Dec 2015	31 Dec 2014
<b>Trade payables</b>	<b>169.5</b>	<b>171.0</b>
<b>Other liabilities</b>		
Price reduction liabilities	10.8	11.9
Personnel-related liabilities	7.7	10.4
Liabilities to investments	3.4	2.9
Liabilities arising from other taxes	3.2	2.8
Advances received	2.8	1.2
Derivative financial instruments	1.0	3.0
Other liabilities and deferred income	20.1	16.0
<b>Total</b>	<b>49.0</b>	<b>48.2</b>

The liabilities from derivative financial instruments resulted from the marking to market of derivatives used to hedge currency and interest-rate risks; in 2014, they had also resulted from the marking to market of derivatives used to hedge commodities transactions.

As at 31 December 2015, interest benefits of €1.3 million (31 December 2014: €1.6 million) derived from a loan from the European Investment Bank and of €0.2 million (31 December 2014: €0.2 million) derived from an interest-free government loan were recognised as deferred income. The loans were initially recognised at fair value and are reported as non-current and current financial debt.

**NOTES TO THE CASH FLOW STATEMENT**

For the purposes of the consolidated cash flow statement, cash and cash equivalents comprise cash on hand, short-term deposits and credit balances held with banks.

Dividend income of €0.5 million was included in cash flow from operating activities (2014: €0.1 million).

The cash flow from financing activities includes the dividend paid to the shareholders of DEUTZ AG for 2014, amounting to €8.5 million.

In 2015, the subsidiary DEUTZ Engine (China) Co., Ltd., in Linyi, China, was wound up and deconsolidated. €2.6 million was then repaid to the non-controlling interest, AB Volvo. This cash outflow was shown under cash flow from financing activities.

In addition, the shares in the joint venture WEIFANG WEICHAIDEUTZ DIESEL ENGINE CO., LTD., Weifang, China, were sold. The consideration of €2.8 million was received in cash and shown as proceeds from the sale of non-current assets under cash flow from investing activities.

## SEGMENT REPORTING

The following table provides an overview of the segments in the DEUTZ Group for 2015 and 2014.

	DEUTZ Compact Engines	DEUTZ Customised Solutions	Other	Total segments	Recon- ciliation	DEUTZ Group
<b>2015</b>

<b>Net income before income taxes</b>	<b>0.9</b>	<b>6.7</b>
Income taxes	2.6	12.8
<b>Net income</b>	<b>3.5</b>	<b>19.5</b>

External segment reporting is based on intragroup corporate management and internal financial reporting and, in line with the nature of the products and services offered, covers the following reportable operating segments:

**DEUTZ Compact Engines** This segment comprises new business and the servicing of water-cooled and oil-cooled diesel engines with capacities of up to 8 litres.

**DEUTZ Customised Solutions** This segment focuses on air-cooled engines and large liquid-cooled engines with capacities exceeding 8 litres. It also includes customer-specific solutions (gensets) and service. A key component of the service business is the supply of reconditioned exchange parts and engines.

**Other** This segment contains operations that do not belong in any other segment.

The designation of a business area as an operating segment is based on internal reporting by segment regularly used by the Board of Management to monitor performance and allocate resources.

The reconciliation table shows the elimination of all intercompany relationships – where relevant – between the segments.

The measurement principles applied to the DEUTZ Group's segment reporting are based on the IFRS principles applied in the consolidated financial statements. The Board of Management, in its capacity as the senior decision-making body, assesses the performance of the segments in terms of their operating profit (EBIT before one-off items). If entities included in the consolidated financial statements using the equity method are directly attributable to a particular segment, the relevant share of the net income or loss for the period is reported under that segment. Finance costs, financial income and income taxes are reported for the DEUTZ Group as a whole and are not allocated to individual operating segments. External revenue constitutes the revenue that the segments generate from their customers. Revenue generated between segments – where relevant – is reported as intersegment revenue. Transfers between segments are reported at fair value.

#### Information about products and services

€ million	2015	2014
Engines	806.6	1,127.8
Service	160.6	152.1
<b>DEUTZ Compact Engines</b>	<b>967.2</b>	<b>1,279.9</b>
Engines	162.4	143.1
Service	117.8	107.2
<b>DEUTZ Customised Solutions</b>	<b>280.2</b>	<b>250.3</b>
<b>Total</b>	<b>1,247.4</b>	<b>1,530.2</b>

#### Geographical information about external revenue

€ million	2015	2014
<b>Germany</b>	<b>163.5</b>	<b>336.8</b>
<b>Outside Germany</b>	<b>1,083.9</b>	<b>1,193.4</b>
Rest of Europe	585.5	744.7

Germany	424.9	461.4
Outside Germany	89.2	94.6
<b>Total</b>	<b>514.1</b>	<b>556.0</b>

The non-current assets comprise property, plant and equipment, intangible assets and equity-accounted investments. They are presented by location of the consolidated entity.

## OTHER INFORMATION

### 25. FINANCIAL RISK MANAGEMENT AND ADDITIONAL INFORMATION ON CAPITAL MANAGEMENT

Owing to its global business operations, the DEUTZ Group is exposed to various financial risks that can arise from adverse movements and trends in the international sales, procurement, interest-rate and foreign-exchange markets. Information about the principles of risk management with regard to financial instruments can be found in the risk report on pages 61 to 62 of the DEUTZ Group's combined management report.

#### Liquidity risk

Prudent liquidity management includes holding a sufficient reserve of cash and cash equivalents, ensuring the option of obtaining funding through bank loans and the ability to issue short-term and long-term capital market instruments. Because the business environment is constantly changing, the treasury department aims to ensure that it has sufficient unused credit lines at its disposal at all times.

The management of liquidity risk in the DEUTZ Group has a number of components: annual planning with interim updates, rolling four-week planning updated weekly and monthly planning updated monthly up to the end of the financial year. Liquidity risk is also assessed in the regular meetings of the Finance Committee.

In order to ensure sufficient liquidity, DEUTZ has at its disposal a syndicated, revolving cash credit line amounting to €160 million that runs until May 2020 and two long-term amortising loans with a total remaining balance of €68.4 million. These are being repaid in equal instalments between July 2014 and July 2020. As part of the loan agreements, the Company is required to comply with certain covenants.

The liquidity analysis also provides information about contractually agreed interest payments and capital repayments in connection with financial liabilities as at the balance sheet date. As far as the utilisation of revolving credit facilities was concerned, it was assumed that the amounts already drawn down by the balance sheet date would continue to apply until the facilities expire.

### Credit risk

The overview of written-down financial assets and of the age structure of past due financial assets that have not been written down does not include: cash and cash equivalents of €112.5 million (31 December 2014: €101.7 million) or available-for-sale financial assets of €3.2 million (31 December 2014: €2.9 million).

There are no significant concentrations of potential credit risk in the DEUTZ Group. The risk from bad debts is restricted by constant monitoring and regular analysis of receivables and their breakdown. Receivables are to a large extent covered by credit insurance. Further measures, such as guarantees and credit-worthiness checks, are used to protect against credit risk. The Group has also put in place procedures and guidelines to ensure

that products and services are only sold to customers who have a satisfactory payment record. Appropriate write-downs are applied to allow for the credit risk attaching to financial assets. The maximum credit risk exposure is limited to the carrying amount in the case of trade receivables and other financial assets such as cash and cash equivalents, available-for-sale financial assets and derivative financial instruments. Credit risk in connection with financial instruments is limited by careful selection of counterparties.

As regards trade receivables and other receivables and assets that were neither past due nor written down as at the balance sheet date, there were no indications that the customers concerned would be unable to meet their payment obligations. The bulk of the DEUTZ Group's trade receivables are insured

with the EULER HERMES Group. There is usually an obligation to the trade credit insurance association (WKV) or, where applicable, the German government's export credit guarantee scheme (APG) to meet defaults on the receivables unless they are secured by letters of credit confirmed by a bank or similar instruments. DEUTZ does not produce any standardised credit rating for its customers itself but usually sets the maximum customer exposure in accordance with the level of cover provided by the credit insurance agency. In addition, we have received guarantees amounting to €0.6 million (31 December 2014: €0.6 million) for foreign trade receivables.

### Currency risk

The DEUTZ Group operates internationally and, consequently, is exposed to currency risk arising from fluctuating exchange rates, principally US dollar exchange rates. Exchange-rate risks are monitored under a centralised currency management system and mitigated by the use of hedging transactions. The treasury department uses hedges, primarily currency forwards, to hedge currency risk emanating from the net position of estimated future cash flows in foreign currency. Between

50 per cent and 80 per cent of the net positions anticipated in the budget for the year are usually hedged.

DEUTZ also takes specific action to increase the volume of purchasing in US dollars; this enables the Company to counteract currency risk arising from sales invoiced in US dollars by creating a 'natural hedge'. Risks arising from the translation of financial statements of subsidiaries prepared in currencies other than the euro are not hedged.

### Currency sensitivity analysis

The Group is mainly exposed to exchange-rate risks from the currency of the USA (US dollars).

The following table illustrates the sensitivity – from a Group perspective – to a 10 per cent rise or fall in the euro against the US dollar. The sensitivity analysis only takes into account outstanding monetary positions denominated in foreign currency and adjusts the period-end translation of those amounts to reflect a 10 per cent change in the exchange rate. The positions involved include currency forward contracts that form part of an effective cash flow hedge, the purpose of which is to hedge fluctuations in foreign-currency payments and receipts caused by changes in exchange rates. Because hedging transactions are measured at fair value, changes in the exchange rates for the currencies underlying these transactions have an impact on the

hedging reserve in other comprehensive income. Other positions involved are currency forward contracts that are no longer used as hedges. Changes in the exchange rates for the currencies underlying these financial instruments result in gains or losses due to restating these instruments at their fair value. Primary instruments (trade receivables and trade payables) denominated in foreign currency and outstanding as at the balance sheet date are also included in the sensitivity analysis. Changes in the exchange rates for the currencies underlying these items result in gains or losses when they are marked to market.

The following tables show the impact on net income and on equity if the euro rises or falls by 10 per cent against the US dollar.

Cash payments and receipts are shown as net amounts under 'notional amounts'.

#### Euro rises by 10 per cent

€ million	Notional amounts	Impact on net income	Notional amounts	Impact on equity
<b>2015</b>				
USD	74.2	-6.2	55.2	4.9

€ million	Notional amounts	Impact on net income	Notional amounts	Impact on equity
<b>2014</b>				
USD	89.8	-7.5	56.4	5.1

#### Euro falls by 10 per cent

€ million	Notional amounts	Impact on net income	Notional amounts	Impact on equity
<b>2015</b>				
USD	74.2	7.6	55.2	-6.1

€ million	Notional amounts	Impact on net income	Notional amounts	Impact on equity
<b>2014</b>				
USD	89.8	9.1	56.4	-6.2

### Interest-rate risk and sensitivity analysis

The DEUTZ Group is exposed to risk from interest rate changes, primarily in relation to floating-rate loans and other debt. As at 31 December 2015, there were no material loans or other debt exposed to interest-rate risk. The floating-rate loan from the European Investment Bank outstanding on the balance sheet date, which had a remaining balance of €34.2 million, was hedged using interest-rate swaps that form part of an effective cash flow hedge. Because hedging transactions are measured at fair value, changes in interest rates have an impact on the hedging reserve in other comprehensive income. The following table shows the impact of the interest-rate swaps on other comprehensive income if market interest rates rise or fall by 100 basis points.

#### Interest rates rise by 100 basis points

€ million	Notional amounts	Impact on equity
2015	34.2	0.8

€ million	Notional amounts	Impact on equity
2014	41.4	1.1

#### Interest rates fall by 100 basis points

€ million	Notional amounts	Impact on equity
2015	34.2	-0.8

€ million	Notional amounts	Impact on equity
2014	41.4	-1.1

### Capital management

The DEUTZ Group manages its capital with the primary objective of supporting business operations and ensuring the continued existence of the Company as a going concern over the long term. A healthy financial structure is necessary to assure the required flexibility in the provision of financial resources. At present, no credit rating has been set for DEUTZ. However, the DEUTZ Group is endeavouring to achieve a balance-sheet structure that meets the requirements for an investment-grade rating. Capital management therefore extends to both equity and debt.

DEUTZ is not subject to capital requirements under its statutes. However, it is under an obligation towards the banks from which it has obtained loans to ensure that its ratio of net financial debt to equity does not exceed a certain level. This external requirement has been integrated into capital management and was met at all times.

The net financial position (cash and cash equivalents less interest-bearing financial debt) was positive during the year under review. There was a further year-on-year improvement to the net financial position, which had risen by €25.3 million to €39.0 million as at the balance sheet date (31 December 2014: €13.7 million). In addition to the net financial position, free cash flow (defined as cash flow from operating activities and investing activities less interest payments) is an essential part of active capital management and is used as a key figure to show changes in the liquidity situation. The free cash flow from continuing operations was €35.0 million in 2015 (2014: €52.0 million).

The equity ratio is another indicator used by the DEUTZ Group to monitor its capital. This indicator reflects the ratio of total assets to Group equity as reported on the consolidated balance sheet. As at 31 December 2015, the equity ratio for the DEUTZ Group was 45.5 per cent (31 December 2014: 44.5 per cent) and therefore remained at a high level and met all internal targets.

## Financial instruments

The following table shows the carrying amounts of the individual financial assets and liabilities for each separate category of financial instrument, reconciled to the corresponding balance sheet item.

### Financial instruments (assets)

<b>Financial assets</b>	<b>236.8</b>	<b>236.6</b>	<b>271.7</b>	<b>271.5</b>
Other loans	1.3	1.3	1.3	1.3
Available-for-sale financial assets measured at cost	0.2	–	0.2	–
Trade receivables	101.2	101.2	122.0	122.0
Other receivables and assets	21.6	21.6	46.5	46.5
Cash and cash equivalents	112.5	112.5	101.7	101.7
<b>Financial liabilities</b>	<b>278.9</b>	<b>281.7</b>	<b>293.3</b>	<b>296.7</b>
Financial debt – liabilities to banks	73.5	76.3	88.0	91.4
Trade payables	169.5	169.5	171.0	171.0
Other liabilities	35.9	35.9	34.3	34.3

In the case of cash and cash equivalents, trade receivables, trade payables and other current financial assets and liabilities (due within one year), the carrying amounts are virtually the same as the fair values owing to the short residual maturity.

The available-for-sale financial assets with a carrying amount of €0.2 million (31 December 2014: €0.2 million) are investments. They are measured at amortised cost because their fair value cannot be reliably determined due to their not being listed on a market and due to a lack of market data for comparable instruments. There was no intention to dispose of these instruments as at 31 December 2015.

The fair value of non-current financial assets and liabilities is computed by discounting estimated future cash flows using arm's length discount rates and taking into account our own credit risk and that of our counterparties based on credit ratings and exchange rates on the balance sheet date.

The following table shows the classification in the IFRS 13 measurement hierarchy of the fair values as at the balance sheet date of financial assets and liabilities that were measured at fair value in the consolidated financial statements, or for which a fair value was disclosed in the notes to the financial statements:

### 31 Dec 2015

€ million	Carrying amount	Fair value	Level 1	Level 2	Level 3
<b>Financial assets</b>					
Securities	2.9	2.9	2.9	–	–
<b>Financial liabilities</b>					
Currency forwards	0.1	0.1	–	0.1	–
Interest-rate swaps	0.9	0.9	–	0.9	–
Financial debt	73.5	76.3	–	–	76.3

### 31 Dec 2014

€ million	Carrying amount	Fair value	Level 1	Level 2	Level 3
<b>Financial assets</b>					
Securities	2.7	2.7	2.7	–	–
<b>Financial liabilities</b>					
Currency forwards	1.9	1.9	–	1.9	–
Commodity derivatives	– <sup>1)</sup>	– <sup>1)</sup>	–	– <sup>1)</sup>	–
Interest-rate swaps	1.1	1.1	–	1.1	–
Financial debt	88.0	91.4	–	–	91.4

Level 1: Measurement is based on the price of identical assets or liabilities in active markets.

Level 2: Measurement is based on the price of a similar instrument in active markets/measurement using a method in which all the critical input factors are based on observable market data.

Level 3: Measurement using a method in which critical input factors are not based on observable market data.

<sup>1)</sup> Rounded figures are below €0.1 million.

The fair value of securities is derived from prices in active markets.

The fair value of derivative financial instruments (currency forwards, interest-rate swaps and, in the previous year, commodity derivatives) is calculated over the remaining term of the instrument using current exchange rates, market interest rates, yield curves and, in the previous year, commodity prices. Our own credit risk and that of our counterparties are also taken into account. The disclosures are based on valuations by banks.

### Net gains and losses on financial instruments

Net gains or losses recognised in the income statement are broken down by measurement category in IAS 39 as follows:

	Loans and receivables	Derivatives designated as hedging instruments	Held-for-trading financial assets	Financial liabilities measured at amortised cost
<b>2015</b>				
€ million				
Net gains/losses	-2.0	-0.4	0.2	-2.9
<b>2014</b>				
€ million				
Net gains/losses	2.6	-0.4	-	-6.7

The net gains or losses for each measurement category primarily comprise gains and losses recognised in profit or loss resulting from the measurement of financial instruments at fair value, currency translation of financial instrument carrying amounts, impairment losses and/or reversal of impairment losses on financial instruments and interest income and expense.

In the year under review, unrealised losses of €0.2 million on available-for-sale financial assets were recognised in other comprehensive income (no gains or losses in 2014). As had been the case in 2014, no realised gains or losses were reclassified from other comprehensive income to the income statement in 2015.

### Total interest income and interest expense

In 2015, interest income of €0.8 million (2014: €0.6 million) and interest expense of €2.9 million (2014: €3.7 million) were attributable to financial assets and financial liabilities that were not measured at fair value through profit or loss.

### Hedging

**Cash flow hedging** As at 31 December 2015, there were currency futures and interest-rate swaps which were classified as hedging instruments. Interest-rate swaps are used to

hedge the interest-rate risk associated with floating-rate loans. Currency futures are used to hedge the currency risk arising from forecast transactions in foreign currencies.

Unrealised gains of €1.9 million on cash flow hedges were recognised in other comprehensive income in 2015 (2014: losses of €2.5 million), taking into account deferred tax liabilities of €0.6 million (2014: deferred tax assets of €0.8 million). These changes in fair value represent the effective portion of the hedge. In 2015, prior to the inclusion of deferred taxes, losses of €8.1 million (2014: gains of €1.0 million) recognised in other comprehensive income during the year were reclassified to other operating income or expenses in the consolidated income statement. There was no hedging ineffectiveness requiring reclassification from the reserve for cash flow hedges to the income statement in the year under review. Hedges relating to foreign-currency transactions in the operating business are expected to be unwound within the next twelve months and those relating to future interest-rate risks are expected to be unwound after a period of four and a half years. The associated gains that have been recognised in other comprehensive income will be reclassified to the income statement.

### Derivative financial instruments

The following derivative financial instruments were reported as at the balance sheet date:

€ million	Notional amounts 2015	Notional amounts 2014	Fair value 2015	Fair value 2014
Currency forwards				
not used as hedges	2.9	4.1	- <sup>1)</sup>	-0.2
used as cash flow hedges	55.2	56.4	-0.1	-1.7
Interest-rate swaps				
used as cash flow hedges	34.2	41.4	-0.9	-1.1
Commodities				
not used as hedges	-	-	- <sup>1)</sup>	- <sup>1)</sup>

<sup>1)</sup> Rounded figures are below €0.1 million.

### Netting

Netting agreements with financial institutions covering derivatives exist within the DEUTZ Group. In accordance with these master agreements, amounts in the same currency relating to outstanding transactions owed by each counterparty on a specific settlement date are aggregated into a net amount. The following table shows the financial assets and liabilities that are subject to netting agreements:

	Gross amounts	Figures netted on the balance sheet	Net amounts reported on the balance sheet	Related amounts not netted on the balance sheet	Potential net amounts
<b>31 Dec 2015</b>					
€ million					
<b>Financial liabilities</b>					
Derivative financial instruments	0.1	-	0.1	-	0.1
<b>31 Dec 2014</b>					
€ million					
<b>Financial liabilities</b>					
Derivative financial instruments	0.5	0.4	0.1	-	0.1

## 26. INTERESTS IN OTHER ENTITIES

As well as the parent company DEUTZ AG, the consolidated financial statements for 2015 included 15 subsidiaries, two joint ventures and one associate.

The Group subsidiary Deutz-Mülheim Grundstücksgesellschaft mbH, Düsseldorf, is a structured entity. DEUTZ holds a total of 19.6 per cent of the voting shares in the entity. The purpose of the company is to sell real estate that was previously purchased by DEUTZ AG to third parties and to lease it to DEUTZ AG in the

interim. The entity's activities are controlled by DEUTZ AG as part of its business operations. For this reason, Deutz-Mülheim Grundstücksgesellschaft mbH, Düsseldorf, constitutes a subsidiary and has to be included in the consolidated financial statements of DEUTZ AG.

At the end of 2015, the DEUTZ Group extended the term of its loan to Deutz-Mülheim Grundstücksgesellschaft mbH by a further 15 months, although it has no obligation to provide financial assistance of this kind.

### Subsidiaries and non-controlling interests

Within the DEUTZ Group there are material non-controlling interests in the subsidiary DEUTZ Engine (Shandong) Co., Ltd., Linyi, China. At the end of 2015, the subsidiary DEUTZ Engine (China) Co. Ltd., which was headquartered in Linyi, China, and was established as a joint venture with AB Volvo (publ), Gothenburg, Sweden, was wound up and deconsolidated. The following table provides a summary of financial information for DEUTZ Engine (Shandong) Co., Ltd., before elimination of intra-group transactions.

€ thousand	31 Dec 2015	31 Dec 2014
Ownership share to be attributed to non-controlling interests (%)	30.0	30.0
Assets	7,593	12,172
Liabilities	436	2,122
Equity	7,157	10,050
thereof to be attributed to non-controlling interests	2,147	3,015
Revenue	–	–
Profit/loss	–3,627	–12,150
Other comprehensive income	–	–
Net income	–3,627	–12,150
thereof to be attributed to non-controlling interests	–1,085	–3,645
Cash flows	–7,072	–1,530
thereof to be attributed to non-controlling interests	–2,122	–459

### Joint ventures

DEUTZ (Dalian) Engine Co., Ltd., Dalian, China, is an unlisted joint arrangement in which the Group shares joint control and has an ownership interest of 50 per cent. The company, which is structured as a separate vehicle, was established jointly with the First Automotive Works Group (China), Dalian, China. It is a strategic partnership for the production and distribution of diesel engines with a capacity of between 3 and 8 litres for the Chinese market. The interest is classified as a joint venture and accounted for in the consolidated financial statements using the equity method.

A summary of financial information for DEUTZ (Dalian) Engine Co., Ltd. based on its annual financial statements prepared in accordance with IFRS is shown in the following table.

€ thousand	2015	2014
Revenue	339,517	359,830
Depreciation and amortisation	–18,294	–14,652
Interest expenses, net	–8,758	–9,201
Income taxes	–	–
Profit (loss) from continuing operations	–18,357	3,259
Net income	–18,357	3,259
Current assets	233,381	316,728
thereof cash and cash equivalents	3,281	15,918
Non-current assets	322,631	296,022
Current liabilities	245,822	307,194
thereof current financial liabilities	113,020	152,315
Non-current liabilities	200,804	186,142
thereof non-current financial liabilities	198,649	183,831
<b>Net assets</b>	<b>109,386</b>	<b>119,414</b>
Group's share of net assets at 1 Jan	59,707	52,300
Share of net income	–9,179	1,630
Dividends received in 2015	–	–
Effect of currency translation	4,165	5,778
Group's share of net assets at 31 Dec	54,693	59,707
Elimination	–8,498	–9,953
Impairment	–	–
<b>Carrying amount using the equity method at 31 Dec</b>	<b>46,196</b>	<b>49,755</b>

### Non-material joint ventures

Financial information is shown below for the Group's interest in DEUTZ AGCO MOTORES S.A., Haedo, Argentina, which is classified as a non-material joint venture. The joint venture WEIFANG WEICHAI-DEUTZ DIESEL ENGINE CO., LTD., Weifang, China, was deconsolidated following the disposal of the shares in the fourth quarter of 2015. The prior-year figures therefore also include the financial information for the Group's interest in this entity.

€ thousand	2015	2014
<b>Carrying amount of interests</b>	– <sup>1)</sup>	– <sup>1)</sup>
Group's share of:		
Loss from continuing operations	–49	–390
Other comprehensive income	–	–
<b>Net income</b>	<b>–49</b>	<b>–390</b>

<sup>1)</sup> As the carrying amount of the interests was zero, total losses of €49 thousand (2014: €2.2 million) were not recognised under the equity method.

### Non-material associates

A summary of financial information is shown below for the Group's interest in D. D. Power Holdings (Pty) Ltd., Elandsfontein, South Africa, which is classified as a non-material associate. The company has a different financial year (ending on 30 November). Annual financial statements for the year ended 31 December have not been prepared for reasons of materiality.

€ thousand	2015	2014
<b>Carrying amount of interests</b>	<b>2,344</b>	<b>2,621</b>
Group's share of:		
Profit (loss) from continuing operations	763	588
Other comprehensive income	0	0
<b>Net income</b>	<b>763</b>	<b>588</b>

## 27. CONTINGENT LIABILITIES

### Contingent liabilities

The DEUTZ Group's contingent liabilities as at the balance sheet date were as follows:

€ million	31 Dec 2015	31 Dec 2014
Guarantee liabilities	3.0	3.7
Warranty liabilities	0.5	1.5
<b>Total</b>	<b>3.5</b>	<b>5.2</b>

### Other financial obligations

The following table shows the notional amounts and due dates of other financial obligations:

€ million	31 Dec 2015	31 Dec 2014
due in less than 1 year	8.5	7.4
due in 1 to 5 years	18.8	6.5
due in more than 5 years	–	–
<b>Total</b>	<b>27.3</b>	<b>13.9</b>

The above obligations largely relate to rental agreements and leases on real estate, movable assets and financial obligations in connection with IT services. Obligations under rental agreements and leases were partly offset by receivables of €40 thousand (2014: €39 thousand) from sub-leases. In 2015, the cost of rentals and leases for real estate and movable assets totalled €11.9 million (2014: €11.3 million).

The year-on-year rise in non-current financial obligations was mainly the result of switching IT service provider and concluding a long-term framework agreement with the new provider.

Commitments to purchase property, plant and equipment and intangible assets amounted to €34.8 million as at 31 December 2015 (31 December 2014: €39.4 million) and commitments to purchase inventories amounted to €63.9 million (31 December 2014: €72.9 million).

### Legal disputes

DEUTZ AG and other companies in the DEUTZ Group are involved in a number of legal disputes, claims for damages and arbitration proceedings that could have an impact on the Group's financial position.

Financial provision has been made to cover litigation risks facing the respective Group companies if the event in question occurred before the balance sheet date, an obligation is probable and the amount of the obligation can be determined with a sufficient degree of reliability.

Claims for compensation have been made in respect of isolated product liability cases in the USA although the extent of these is as yet unknown. Due to the low probability of losses occurring, no provisions have been recognised on the balance sheet. The outcome of these legal disputes cannot be predicted with any degree of certainty. It is therefore possible that they might have a negative impact on the financial position or financial performance. However, the level of existing insurance cover means that if the outcome is negative, this impact will only be a maximum of €1.5 million.

We do not expect the above risks to have a significantly adverse long-term impact on the DEUTZ Group's financial position or financial performance beyond the financial provision already made.

## 28. RELATED-PARTY DISCLOSURES

In addition to its consolidated subsidiaries, the DEUTZ Group maintains relationships with related parties.

These include the business relationships between the DEUTZ Group and **entities in which it holds significant investments** as well as the following DEUTZ AG **shareholders** (including their subsidiaries) that are in a position to exert a significant influence over the DEUTZ Group:

- AB Volvo (publ), Gothenburg, Sweden (group)

Related parties also include the **Supervisory Board** and the **Board of Management**.

The following table shows the volume of material goods and services either provided for or received from entities in which the DEUTZ Group holds significant investments:

€ million	Goods and services provided		Other expenses for services received		Receivables 31 Dec		Payables 31 Dec	
	2015	2014	2015	2014	2015	2014	2015	2014
Associates	–	–	–	–	–	–	–	–
Joint ventures	3.2	7.2	–	–	–	0.6	0.5	–
Other investments	0.6	0.6	4.5	4.5	0.9	0.2	2.9	2.9
<b>Total</b>	<b>3.8</b>	<b>7.8</b>	<b>4.5</b>	<b>4.5</b>	<b>0.9</b>	<b>0.8</b>	<b>3.4</b>	<b>2.9</b>

The goods supplied and services rendered to joint ventures are largely attributable to goods supplied to our Chinese joint venture DEUTZ (Dalian) Engine Co., Ltd.

As at 31 December 2015, impairment losses of €28.1 million (31 December 2014: €30.0 million) had been recognised on €29.0 million (31 December 2014: €30.2 million) of the Company's total receivables due from investments, which resulted in an expense of €0.5 million in 2015 (2014: €3.1 million). The lion's share of the impaired receivables related to other investments. Of the receivables, €6.8 million related to loans granted by DEUTZ (31 December 2014: €6.8 million) on which impairment losses of €6.8 million had been recognised (31 December 2014: €6.8 million). Taken together, neither the interest and similar income nor the interest expense and similar charges arising from the interest paid on these loans are material.

The following table gives a breakdown of the significant business relationships between the DEUTZ Group and its shareholders, including their subsidiaries:

€ million	Volvo Group	
	2015	2014
Engines & spare parts supplied	250.8	265.9
Services	7.1	14.5
Receivables as at 31 Dec	13.6	18.2

All transactions were concluded at arm's-length market rates. DEUTZ has an agreement with the Volvo Group that grants Volvo companies extended credit periods in return for payment of a fee.

DEUTZ has also issued an undertaking to support another equity investment. According to the undertaking, the Group will provide the entity with finance to ensure that it has sufficient funds at all times to meet its current and future obligations, and to prevent overindebtedness by way of debt subordination. From the present perspective, no claim is expected to be made on the Group.

The following payments were made to the Supervisory Board and the Board of Management as related parties of the DEUTZ Group.

€ million	Supervisory Board		Board of Management	
	2015	2014	2015	2014
Short-term remuneration <sup>1)</sup>	1.1	1.1	2.7	2.3
Share-based remuneration <sup>2)</sup>	0 <sup>3)</sup>	0 <sup>3)</sup>	0.3	-0.1

<sup>1)</sup> The current remuneration for members of the Supervisory Board includes both remuneration for their work as Supervisory Board members and the regular salaries of the salaried employee representatives.

<sup>2)</sup> The disclosure of share-based remuneration corresponds with the expense (+) or income (-) recognised in the operating profit in 2015 from the changes in provisions made for distributed virtual share options.

<sup>3)</sup> Rounded figures are below €0.1 million.

The DEUTZ Group did not maintain material business relationships with any other related parties.

## 29. EVENTS AFTER THE REPORTING PERIOD

No events occurred after 31 December 2015 that had a material impact on the financial position or financial performance of the DEUTZ Group.

## 30. SHARE-BASED REMUNERATION PROGRAMMES

Between 2007 and 2015, DEUTZ AG launched long-term incentive plans as long-term components of remuneration. Under these long-term incentive plans, virtual stock options are issued to reward management for its sustained contribution to the Company's success.

## General description of the incentive plans of DEUTZ AG

Under DEUTZ AG's incentive plans, virtual options are issued on shares in DEUTZ AG. The Company decides at its discretion who is eligible to participate in the plans. However, only members of the DEUTZ Group's senior management and members of the Supervisory Board of DEUTZ AG may be considered for inclusion. It is at the discretion of the Company to decide how many options are granted.

By the balance sheet date, the following long-term incentive plans (LTI) that were still in existence, with the number of options shown, had been granted free of charge:

Incentive plan	Date of grant	Number of options
LTI no. II	1 February 2008 and 1 April 2009	345,000 and 60,000
LTI no. III	1 June 2009	330,000
LTI no. IV	1 July 2010	330,000
LTI no. V	1 June 2011	280,000
LTI no. VI	1 August 2012	270,000
LTI BoM 2013	1 January 2013 and 1 March 2013	104,079 and 32,663
LTI no. VII	1 July 2013	260,000
LTI BoM 2014	1 January 2014	72,389
LTI no. VIII	1 September 2014	320,000
LTI BoM 2015	1 January 2015	125,657
LTI no. IX	1 June 2015	320,000

A total of 739,788 of these options had been granted to current and former members of the DEUTZ AG Board of Management.

### Information on the exercise of options

One of the fundamental requirements for exercising options is that the option holders themselves invest in the Company at a ratio of one share per ten options, or one share per 20 options in the case of LTI BoM 2013, 2014 and 2015. The absolute earliest that options can be exercised is three or four years after the date of grant (vesting period) and then only within four years from the end of the vesting period and only within ten days from the date of publication of quarterly financial statements. However, options under the LTI BoM 2013, 2014 and 2015 are exercised automatically four years after the date of grant. The Company may delay the start of the exercise window for the options or accelerate the exercise and vesting periods, but cannot change the exercise or vesting periods of the options relating to LTI BoM 2013, 2014 and 2015.

Furthermore, options may only be exercised

- if the market price of DEUTZ AG shares has risen by at least 30 per cent relative to the reference price (dividend distributions by DEUTZ AG must be taken into consideration,

i.e. for the purposes of calculating the performance target, the total gross dividend distribution up to the exercise date must be added to the DEUTZ AG share price), or

- if in the period starting from the grant date of the option and ending on the date of exercise, DEUTZ AG shares outperform the Prime Industrial Performance Index – or any future index that replaces the Prime Industrial Performance Index – by at least 30 per cent, or
- in the case of LTI BoM 2013, 2014 and 2015, if in the period starting from the grant date of the option and ending on the date of exercise, DEUTZ AG shares outperform the MDAX – or any future index that replaces the MDAX – by at least 10 percentage points.

A request to exercise options must be submitted to the Company in writing.

The following specific terms and conditions apply to the incentive plans still in existence:

Incentive plan	Earliest or automatic exercise date	Reference price
LTI no. II	1 February 2011 and 1 April 2012	€6.92 and €1.94
LTI no. III	1 June 2013	€2.68
LTI no. IV	1 July 2014	€4.39
LTI no. V	1 June 2015	€6.10
LTI no. VI	1 August 2016	€3.89
LTI BoM 2013	1 January 2017 and 1 March 2017	€3.36 and €3.98
LTI no. VII	1 July 2017	€4.45
LTI BoM 2014	1 January 2018	€6.63
LTI no. VIII	1 September 2018	€5.37
LTI BoM 2015	1 January 2019	€3.82
LTI no. IX	1 June 2019	€4.40

When an option is exercised, the beneficiary receives a cash payment in the amount of the difference between the DEUTZ AG share price on the exercise date and the reference price at the time the option was granted. Contrary to this, beneficiaries of LTI BoM 2013, 2014 and 2015 receive a cash payment equivalent to the average closing price of DEUTZ AG shares on the 60 trading days prior to the end of the vesting period up to a maximum of 1.5 times the reference price. No beneficiary receives shares in the Company.

The following table shows the changes to the number of outstanding options in 2015:

Incentive plan	Out-standing options at 1 Jan	Options granted	Options exercised	Options expired	Out-standing options at 31 Dec
LTI no. II	150,000	–	–	75,000	75,000
LTI no. III	10,000	–	10,000	–	–
LTI no. IV	260,000	–	–	30,000	230,000
LTI no. V	250,000	–	–	10,000	240,000
LTI no. VI	270,000	–	–	20,000	250,000
LTI BoM 2013	136,742	–	–	–	136,742
LTI no. VII	260,000	–	–	10,000	250,000
LTI BoM 2014	72,389	–	–	–	72,389
LTI no. VIII	320,000	–	–	20,000	300,000
LTI BoM 2015	–	125,657	–	–	125,657
LTI no. IX	–	320,000	–	–	320,000
	1,729,131	445,657	10,000	165,000	1,999,788

### Notes on the fair value of options

Because the virtual options are cash-based instruments rather than equity-based instruments, the Company is obliged to recognise a provision, the amount of which is derived from the fair value of the virtual options at the grant date and apportioned over the vesting period pro rata temporis.

An option pricing model using the Black-Scholes formula was used to ascertain the fair value. The model factors in the aforementioned exercise prices, the term and the value of the underlying asset (DEUTZ AG shares).

#### LTI no. II

The risk-free interest rate (4.00 per cent) used in the calculation is based on German federal government bonds with terms of four to ten years issued at the start of 2008. The assumed volatility (59.28 per cent) is based on the average value for call options on DEUTZ AG shares available on the market on 1 February 2008. Fluctuation was assumed to be 0 per cent. These assumptions were also used in the calculation for the options issued on 1 April 2009 under the rules for LTI no. II.

The calculation on the grant date was based on the DEUTZ AG share price of €6.92 (€1.94) on 1 February 2008 (1 April 2009). It was also assumed that employees would tend to exercise options at the earliest possible date. Consequently, the provisions were calculated on the basis of the vesting period. As the vesting period for some of the options ended on 1 February 2011, the calculation is now based on the assumption that these options might be exercised at any time, taking into account the maximum term of the options.

#### LTI no. III

The risk-free interest rate (3.50 per cent) used in the calculation is based on German federal government bonds with terms of up to ten years issued in mid-2009. The assumed volatility (60.56 per cent) is based on the average value for call options on DEUTZ AG shares available on the market at the end of the year. Fluctuation was assumed to be 0 per cent.

The calculation on the grant date was based on the DEUTZ AG share price of €3.15 on 1 June 2009. It was also assumed that employees would tend to exercise options at the earliest possible date. Consequently, the provisions were calculated on the basis of the vesting period.

#### LTI no. IV

The risk-free interest rate (2.50 per cent) used in the calculation is based on German federal government bonds with terms of up to ten years issued in mid-2010. The assumed volatility (48.87 per cent) is based on the average value for call options on DEUTZ AG shares available on the market at the end of the year. Fluctuation was assumed to be 0 per cent.

The calculation on the grant date was based on the DEUTZ AG share price of €4.10 on 1 July 2010. It was also assumed that employees would tend to exercise options at the earliest possible date. Consequently, the provisions were calculated on the basis of the vesting period.

#### LTI no. V

The risk-free interest rate (3.25 per cent) used in the calculation is based on German federal government bonds with terms of up to ten years issued in mid-2011. The assumed volatility (51.35 per cent) is based on the average value for call options on DEUTZ AG shares available on the market at the end of the year. Fluctuation was assumed to be 0 per cent.

The calculation on the grant date was based on the DEUTZ AG share price of €6.82 on 1 June 2011. It was also assumed that employees would tend to exercise options at the earliest possible date. Consequently, the provisions were calculated on the basis of the vesting period.

#### LTI no. VI

The risk-free interest rate (1.75 per cent) used in the calculation is based on German federal government bonds with terms of up to ten years issued in mid-2012. The assumed volatility (57.30 per cent) is based on the average value for call options on DEUTZ AG shares available on the market at the end of the year. Fluctuation was assumed to be 0 per cent.

The calculation on the grant date was based on the DEUTZ AG share price of €3.07 on 1 August 2012. It was also assumed that employees would tend to exercise options at the earliest possible date. Consequently, the provisions were calculated on the basis of the vesting period.

#### LTI BoM 2013

The risk-free interest rate (0.40 per cent) used in the calculation is based on German Federal notes (Bobl) and German Federal Treasury notes (Schatz) with terms of two to five years issued at the start of 2013. The assumed volatility (61.80 per cent) is based on the average value for call options on DEUTZ AG shares available on the market as at 1 January 2013. Fluctuation was assumed to be 0 per cent. These assumptions were also used in the calculation for the options issued on 1 March 2013.

The calculation on the grant date was based on the DEUTZ AG share price of €3.76 on 1 January 2013 and €4.40 on 1 March 2013. As the options are automatically exercised at the end of the vesting period, the provision for the options that are not yet vested was calculated on the basis of the vesting period.

#### LTI no. VII

The risk-free interest rate (1.75 per cent) used in the calculation is based on German federal government bonds with terms of up to ten years issued in mid-2013. The assumed volatility (54.18 per cent) is based on the average value for call options on DEUTZ AG shares available on the market at the end of the year. Fluctuation was assumed to be 0 per cent.

The calculation on the grant date was based on the DEUTZ AG share price of €4.77 on 1 July 2013. It was also assumed that employees would tend to exercise options at the earliest possible date. Consequently, the provisions were calculated on the basis of the vesting period.

#### LTI BoM 2014

The risk-free interest rate (0.625 per cent) used in the calculation is based on German Federal notes (Bobl) and German Federal Treasury notes (Schatz) with terms of two to five years issued at the start of 2014. The assumed volatility (50.44 per cent) is based on the average value for call options on DEUTZ AG shares available on the market as at 1 January 2014. Fluctuation was assumed to be 0 per cent.

The calculation on the grant date was based on the DEUTZ AG share price of €6.49 on 1 January 2014. As the options are automatically exercised at the end of the vesting period, the provision for the options that are not yet vested was calculated on the basis of the vesting period.

#### LTI no. VIII

The risk-free interest rate (0.63 per cent) used in the calculation is based on German federal government bonds with terms of up to ten years issued in the second half of 2014. The assumed volatility (57.72 per cent) is based on the average value for call options on DEUTZ AG shares available on the market at the end of the year. Fluctuation was assumed to be 0 per cent.

The calculation on the grant date was based on the DEUTZ AG share price of €4.52 on 1 September 2014. It was also assumed that employees would tend to exercise options at the earliest possible date. Consequently, the provisions were calculated on the basis of the vesting period.

#### LTI BoM 2015

The risk-free interest rate (0.1 per cent) used in the calculation is based on German Federal notes (Bobl) and German Federal Treasury notes (Schatz) issued at the start of 2015. The assumed volatility (45.34 per cent) is based on the average value for call options on DEUTZ AG shares available on the market as at 1 January 2015. Fluctuation was assumed to be 0 per cent.

The calculation on the grant date was based on the DEUTZ AG share price of €4.24 on 1 January 2015. As the options are automatically exercised at the end of the vesting period, the provision for the options that are not yet vested was calculated on the basis of the vesting period.

#### LTI no. IX

The risk-free interest rate (0.63 per cent) used in the calculation is based on German federal government bonds with terms of up to ten years issued in the second half of 2015. The assumed volatility (58.58 per cent) is based on the average value for call options on DEUTZ AG shares available on the market at the end of the year. Fluctuation was assumed to be 0 per cent.

The calculation on the grant date was based on the DEUTZ AG share price of €5.24 on 1 June 2015. It was also assumed that employees would tend to exercise options at the earliest possible date. Consequently, the provisions were calculated on the basis of the vesting period.

In accordance with the requirement for the fair value of options to be recalculated on each balance sheet date, a calculation was carried out on the basis of the DEUTZ AG share price of €3.69 on 31 December 2015 (31 December 2014: €4.00) which resulted in an expense of €330 thousand as at 31 December 2015 (31 December 2014: income of €790 thousand). A total provision of €1,463 thousand was recognised at the end of 2015 (31 December 2014: €1,133 thousand). The amount is broken down as follows:

Other information

Disclosures under German  
accounting standards

Incentive plan	31 Dec 2015 € thousand	31 Dec 2014 € thousand

<b>Total</b>	<b>3,789</b>	<b>3,988</b>

### 33. CORPORATE GOVERNANCE

In December 2015, the Board of Management and the Supervisory Board of DEUTZ AG issued a declaration of conformity with the recommendations of the German Corporate Governance Code government commission pursuant to section 161 AktG and made this declaration permanently and publicly available on the Company's website ([http://www.deutz.de/investor\\_relations/corporate\\_governance/declaration\\_of\\_conformity.en.html](http://www.deutz.de/investor_relations/corporate_governance/declaration_of_conformity.en.html)).

### 34. AUDITORS' FEES

The total fees reported for auditing the consolidated financial statements for 2014 and 2015 are broken down as follows:

€ thousand	2015	2014
Auditing	318	302
Other attestation services	181	154
<b>Total</b>	<b>499</b>	<b>456</b>

### 35. TOTAL REMUNERATION FOR THE BOARD OF MANAGEMENT, FORMER BOARD OF MANAGEMENT MEMBERS AND THE SUPERVISORY BOARD

#### Board of Management

The total remuneration for the Board of Management of DEUTZ AG in 2015 was €3,275 thousand (2014: €2,740 thousand). This consisted of short-term employee benefits of €2,743 thousand (2014: €2,270 thousand) and other long-term benefits as part of the long-term incentive plans amounting to €532 thousand (2014: €470 thousand).

Further details about the remuneration system for members of the Board of Management and details of individual remuneration can be found in the 'Remuneration report' section of the 2015 combined management report.

Remuneration for former members of the Board of Management or their surviving dependants amounted to €1,550 thousand (2014: €1,465 thousand) for DEUTZ AG and the Group; provisions of €15,521 thousand (31 December 2014: €16,798 thousand) have been recognised to cover pension obligations to these persons.

#### Supervisory Board

The total remuneration for the Supervisory Board of DEUTZ AG in 2015 was €613 thousand (2014: €599 thousand). In addition, the employee representatives on the Supervisory Board who are also employees of the DEUTZ Group received normal salaries in line with their employment contracts. The level of their salaries represented appropriate remuneration for corresponding functions and tasks in the Group.

Further details about the Supervisory Board remuneration system and details of individual remuneration can be found in the 'Remuneration report' section of the 2015 combined management report.

#### Advances and loans to members of the Board of Management and the Supervisory Board

As at 31 December 2015, there were no outstanding advances or loans to any members of the Board of Management or the Supervisory Board, nor had any guarantees or other warranties been issued in favour of any such persons.

### 36. DISCLOSURES UNDER THE GERMAN SECURITIES TRADING ACT (WPHG)

The German Securities Trading Act (WpHG) obliges investors whose share of voting rights in listed companies reaches certain thresholds to notify the company accordingly. DEUTZ AG received the following voting right notifications in 2015:

On 13 January 2015, pursuant to section 21 (1) WpHG, Fidelity Funds SICAV, Luxembourg, Luxembourg, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 12 January 2015 and amounted to 2.97 per cent (3,588,983 voting rights) on that date.

On 2 February 2015, pursuant to section 21 (1) WpHG, FIL Limited, Hamilton, Bermuda, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 2 February 2015 and amounted to 2.94 per cent (3,558,971 voting rights) on that date. All voting rights are attributable to it pursuant to section 22 (1) sentence 1 no. 6 WpHG.

On 2 February 2015, pursuant to section 21 (1) WpHG, FIL Holdings (UK) Limited, Hildenborough, United Kingdom, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 2 February 2015 and amounted to 2.94 per cent (3,558,971 voting rights) on that date. All voting rights are attributable to it pursuant to section 22 (1) sentence 1 no. 6 in conjunction with section 22 (1) sentence 2 WpHG.

On 2 February 2015, pursuant to section 21 (1) WpHG, FIL Investments International, Hildenborough, United Kingdom, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 2 February 2015 and amounted to 2.94 per cent (3,558,971 voting rights) on that date. All voting rights are attributable to it pursuant to section 22 (1) sentence 1 no. 6 WpHG.

On 24 April 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 22 April 2015 and amounted to 1.34 per cent (1,622,434 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 1.34 per cent (1,622,434 voting rights) are attributable to it.

On 24 April 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 22 April 2015 and amounted to 1.34 per cent (1,622,434 voting rights) on that date.

On 27 April 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 24 April 2015 and amounted to 3.16 per cent (3,822,434 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 3.16 per cent (3,822,434

voting rights) are attributable to it. The voting rights attributable to it are held by the following company under its control, whose voting share in DEUTZ AG is 3.16 per cent (3,822,434 voting rights): Norges Bank (the Central Bank of Norway).

On 27 April 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 24 April 2015 and amounted to 3.16 per cent (3,822,434 voting rights) on that date.

On 1 May 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 28 April 2015 and amounted to 2.91 per cent (3,513,149 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 2.91 per cent (3,513,149 voting rights) are attributable to it.

On 1 May 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 28 April 2015 and amounted to 2.91 per cent (3,513,149 voting rights) on that date.

On 19 May 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 18 May 2015 and amounted to 3.02 per cent (3,645,137 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 3.02 per cent (3,645,137 voting rights) are attributable to it. The voting rights attributable to it are held by the following company under its control, whose voting share in DEUTZ AG is 3 per cent or more: Norges Bank (the Central Bank of Norway).

On 19 May 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 18 May 2015 and amounted to 3.02 per cent (3,645,137 voting rights) on that date.

On 1 June 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 28 May 2015 and amounted to 2.95 per cent (3,565,498 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 2.95 per cent (3,565,498 voting rights) are attributable to it.

On 1 June 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 28 May 2015 and amounted to 2.95 per cent (3,565,498 voting rights) on that date.

On 6 July 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 30 June 2015 and amounted to 3.03 per cent (3,662,978 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 3.03 per cent (3,662,978 voting rights) are attributable to it. The voting rights attributable to it are held by the following company under its control, whose voting share in DEUTZ AG is 3 per cent or more: Norges Bank (the Central Bank of Norway).

On 6 July 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 30 June 2015 and amounted to 3.03 per cent (3,662,978 voting rights) on that date.

On 23 September 2015, pursuant to section 21 (1) WpHG, Dimensional Holdings Inc., Austin, Texas, USA, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 22 September 2015 and amounted to 3.02 per cent (3,644,541 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 6 WpHG in conjunction with section 22 (1) sentence 2 WpHG, 3.02 per cent (3,644,541 voting rights) are attributable to it.

On 23 September 2015, pursuant to section 21 (1) WpHG, Dimensional Fund Advisors LP, Austin, Texas, USA, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 22 September 2015 and amounted to 3.02 per cent (3,644,541 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 6 WpHG, 2.91 per cent (3,511,911 voting rights) and, pursuant to section 22 (1) sentence 1 no. 6 WpHG in conjunction with section 22 (1) sentence 2 WpHG, 0.13 per cent (158,950 voting rights) are attributable to it.

On 28 September 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway notified us that its voting share in our Company had fallen below the 3 per cent threshold on 24 September 2015 and amounted to 2.97 per cent (3,593,134 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 2.97 per cent (3,593,134 voting rights) are attributable to it.

On 28 September 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 24 September 2015 and amounted to 2.97 per cent (3,593,134 voting rights) on that date.

On 16 October 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 12 October 2015 and amounted to 3.01 per cent (3,643,869 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 3.01 per cent (3,643,869 voting rights) are attributable to it. The voting rights

attributable to it are held by the following company under its control, whose voting share in DEUTZ AG is 3 per cent or more: Norges Bank (the Central Bank of Norway).

On 14 October 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 12 October 2015 and amounted to 3.01 per cent (3,643,869 voting rights) on that date.

On 19 October 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 14 October 2015 and amounted to 2.99 per cent (3,624,191 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 2.99 per cent (3,624,191 voting rights) are attributable to it.

On 19 October 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 14 October 2015 and amounted to 2.99 per cent (3,624,191 voting rights) on that date.

On 5 November 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 2 November 2015 and amounted to 3.03 per cent (3,664,961 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 3.03 per cent (3,664,961 voting rights) are attributable to it. The voting rights attributable to it are held by the following company under its control, whose voting share in DEUTZ AG is 3 per cent or more: Norges Bank (the Central Bank of Norway).

On 5 November 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 2 November 2015 and amounted to 3.03 per cent (3,664,961 voting rights) on that date.

On 18 November 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 13 November 2015 and amounted to 2.87 per cent (3,468,407 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 2.87 per cent (3,468,407 voting rights) are attributable to it.

On 18 November 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had fallen below the 3 per cent threshold on 13 November 2015 and amounted to 2.87 per cent (3,468,407 voting rights) on that date.

On 2 December 2015, pursuant to section 21 (1) WpHG, the Ministry of Finance on behalf of the State of Norway, Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 30 November 2015 and amounted to 3.01 per cent (3,642,733 voting rights) on that date. Pursuant to section 22 (1) sentence 1 no. 1 WpHG, 3.01 per cent (3,642,733 voting rights) are attributable to it. The voting rights attributable to it are held by the following company under its control, whose voting share in DEUTZ AG is 3 per cent or more: Norges Bank (the Central Bank of Norway).

On 2 December 2015, pursuant to section 21 (1) WpHG, Norges Bank (the Central Bank of Norway), Oslo, Norway, notified us that its voting share in our Company had exceeded the 3 per cent threshold on 30 November 2015 and amounted to 3.01 per cent (3,642,733 voting rights) on that date.
